BOOK 11-12

POSITIVE LIGHTING

BOOK 11-12

The logo consists of the word "ROVASI" in a bold, black, sans-serif font. The letter "O" is replaced by two overlapping circles: a blue circle at the top and a green circle below it, partially overlapping the blue one.

ROVASI

At ROVASI, our mission is to completely satisfy the users of the lighting fixtures we manufacture and in this way, all the actors participating in the lighting project: lighting consultants, engineers, architects. To this end, we offer a wide range of luminaires with high levels of quality and design, alongside excellent customer service and technical support. All this has helped make the company what it is today: a recognized name in the design and manufacture of luminaires for indoor and outdoor architectural and commercial lighting.

High-quality, safe products, a comprehensive range of items, excellent service, substantial experience and elegant, functional design are the platform on which we have built our reputation.

MISSION > MISIÓN > MISSION

La misión de ROVASI es la satisfacción total de los usuarios finales de los aparatos de iluminación que fabricamos y en su camino, la de todos los actores que participan en el proyecto de iluminación: lighting consultants, ingenieros, arquitectos. Por eso, ofrecemos una amplia gama de luminarias de alta calidad y diseño y lo acompañamos con un excelente servicio y atención. Gracias a ello, hoy en día, somos una empresa reconocida en el diseño y la fabricación de luminarias para la iluminación arquitectural y comercial para uso interior y exterior.

Unos productos de gran calidad y seguridad, una extensa gama de artículos, un servicio excelente, una dilatada experiencia y un diseño elegante y funcional avalan nuestra trayectoria.

Chez ROVASI, nous avons pour mission de satisfaire pleinement les utilisateurs des éclairages que nous fabriquons et en ce but, tous les acteurs participant dans le projet d'éclairage: concepteur lumière, ingénieurs, architectes. C'est donc à travers une large gamme de luminaires présentant un niveau de conception et de qualité élevé et par une attention et un service client d'excellence que nous sommes devenus aujourd'hui une entreprise reconnue dans le design et la fabrication de luminaires pour l'éclairage architectural et commercial d'intérieur et d'extérieur.

Des produits de grande qualité hautement sécurisés, une large gamme d'articles, un service d'excellence, une solide expérience ainsi qu'un design élégant et fonctionnel, sont les atouts sur lesquels nous avons bâti notre réputation.

Choosing a luminaire that will enhance the style and suit the essence of a space as well as withstand the weather conditions to which it will be subjected is not always a simple task. That is why we are constantly on hand to offer advice in selecting the perfect luminaire.

Our team of professionals is trained to offer quality service that is efficient and specialised, providing constant support in all stages of any project.

Our dedication to service and technical support for our customers means that you will enjoy personalised attention and a rapid response.

Service > Servicio > Service

La elección de la luminaria que realce el estilo de un ambiente y se adapte al espacio y a las condiciones climáticas que va a tener que soportar puede no ser una tarea fácil. Por eso, le asesoraremos en todo momento para que elija la luminaria perfecta.

Disponemos de un equipo de profesionales capaz de darle una atención de calidad, eficaz y especializada y de acompañarle en todas las fases de cualquier proyecto.

Gracias a la actitud de servicio y de atención a nuestros clientes, gozará de un seguimiento individualizado y una respuesta ágil.

Le choix du luminaire qui mettra en valeur l'ambiance voulue, tout en étant adapté à l'espace et aux conditions climatiques auxquelles il sera soumis, peut ne pas s'avérer une tâche facile.

Nous vous conseillons donc à tout moment, pour vous permettre de choisir le luminaire idéal.

Notre équipe vous accordera une écoute de qualité, efficace et spécialisée, et vous accompagnera dans toutes les phases de votre projet, quel qu'il soit.

Grâce à notre démarche de service et d'attention au client, vous bénéficierez d'un suivi individuel et d'une réponse professionnelle.

After almost 20 years of designing and manufacturing luminaires that are ahead of constantly changing trends and demands, there are companies and professionals on five continents that trust in our products.

From the very beginning, we have always maintained a commitment to total quality, continuous improvement, innovation, design and service. We have participated in many projects that attest to our tradition of excellence.

Experience > Experiencia > Expérience

Casi 20 años diseñando y fabricando luminarias a la vanguardia de las tendencias y exigencias del momento, empresas y profesionales de los cinco continentes confían en nuestros productos.

Desde el primer día, hemos apostado por la calidad total, la mejora continua, la innovación, el diseño y el servicio. Son muchos los proyectos en los que hemos participado los que acreditan nuestra trayectoria.

Depuis près de vingt ans que nous concevons et fabriquons des luminaires à la pointe des tendances et des exigences du moment, des entreprises et des professionnels des cinq continents ont confiance en nos produits.

Dès le premier jour, nous avons fait le pari de la qualité totale, de l'amélioration continue, de l'innovation, du design et du service, et nous avons consolidé notre expérience au gré des nombreux projets auxquels nous avons participé.

Breathing life into a new luminaire is a creative challenge for us. Prioritising lighting criteria, we create our luminaires with the best aesthetics to suit the characteristics of the project and the requirements of the architect and the lighting designer.

When working towards a new product, we explore different designs, dimensions and colours to create a functional luminaire with a unique style that blends in with a specific architectural project. Our designs are created to satisfy the most demanding requirements.

ROVASI luminaires are the perfect combination of design and lighting knowledge, with an excellent marriage of technology and aesthetics. Thus, they give you total lighting control: high performance and high efficiency.

As we create a new product, we take environmental criteria into account, so the result is always an environmentally friendly luminaire that is highly efficient, in order to guarantee low energy consumption.

Every one of the components that make up the luminaire has been rigorously selected by the technical team to create the highest-quality lighting.

Design > Diseño > Design

Dar vida a una nueva luminaria es un reto creativo para nosotros. Anteponiendo los criterios lumínicos, damos la mejor estética para crear una luminaria que satisface las características del proyecto y la razón del arquitecto y el lighting designer.

Por eso, en la búsqueda de un nuevo producto investigamos con diseños, dimensiones y colores hasta crear una luminaria funcional y con estilo único que encaje con una propuesta arquitectónica específica. Nuestros diseños son creados para dar respuesta a las necesidades más exigentes.

Así, las luminarias ROVASI son la composición perfecta de diseño y conocimientos lumínicos, la mejor alianza entre tecnología y estética. Disponiendo pues de un control total de la luz: elevado rendimiento y gran eficacia.

En el proceso de creación de un nuevo producto se valoran criterios medioambientales para que el resultado sea siempre una luminaria respetuosa con el entorno y altamente eficiente para garantizar un bajo consumo energético.

Cada uno de los componentes que configuran la luminaria han sido estrictamente seleccionados por el equipo técnico para obtener siempre la máxima calidad en iluminación.

Donner vie à un nouveau luminaire est un véritable défi créatif pour nous.

Ayant pour priorité les critères lumineux nous essayons d'obtenir la meilleure esthétique afin de créer un luminaire qui réponde aux caractéristiques du projet tout en satisfaisant la raison de l'architecte et le concepteur lumière.

Ayant pour priorité les critères lumineux nous essayons d'obtenir la meilleure esthétique afin de créer un luminaire qui réponde aux caractéristiques du projet tout en satisfaisant la raison de l'architecte et le concepteur lumière.

Ainsi, lors du développement d'un nouveau produit, nous travaillons sur le design, les dimensions et les coloris, jusqu'à ce que nous obtenions un luminaire fonctionnel doté d'un style unique qui s'inscrit dans une proposition architecturale spécifique. Nos créations ont pour vocation de répondre aux besoins les plus exigeants.

Ainsi, les luminaires ROVASI incarnent un mariage parfait entre design et connaissances en lumière, une alliance remarquable entre technologie et esthétique. Nous disposons ainsi d'un contrôle total sur la lumière : rendement élevé et grande efficacité.

Lors du processus de création d'un nouveau produit, nous évaluons des critères environnementaux dans le but de toujours obtenir un luminaire alliant respect du milieu et grande efficacité, et ainsi garantir une consommation énergétique réduite.

Chacun des composants de nos luminaires fait l'objet d'une sélection rigoureuse par notre équipe technique, afin d'atteindre une qualité d'éclairage maximale.

The quality of the lighting is an extremely important factor in any space. And the only way to create quality lighting is to use quality luminaires.

At ROVASI, we have a commitment to total quality, and it is for this reason that the high quality of our luminaires stands out. Always manufactured on our premises, with care lavished on every detail, our product line is produced from the finest materials and complies with the strict standards demanded by today's regulations.

Our desire to do things right and to satisfy the user enables us to offer quality pieces that are long-lasting. Always on the lookout for ways to improve, we have a quality control system that guarantees continuous professional monitoring of our products.

Our ISO 9001:2008 for the design and manufacture of lighting equipment and fittings guarantees that.

Quality > Calidad > Qualité

La calidad de la iluminación es un factor extremadamente importante dentro de cualquier espacio. Solamente gozaremos de iluminación de calidad si disponemos de luminarias de calidad.

En ROVASI apostamos por la calidad total, por este motivo la alta calidad de nuestras luminarias marca la diferencia. Siempre fabricadas en nuestras instalaciones, cuidando hasta el más mínimo detalle, nuestra línea de productos están confeccionados con los mejores materiales siguiendo constantemente los estrictos criterios que marcan las normas actuales.

Nuestro afán de hacer bien las cosas y de satisfacer al usuario, nos permite ofrecer piezas de calidad y de larga duración. Siempre en permanente mejora, disponemos de un sistema de control de calidad que garantiza un seguimiento continuo y profesional de nuestros productos.

La certificación ISO 9001:2008 por el diseño y la fabricación de luminarias lo garantiza.

La qualité d'éclairage est un facteur extrêmement important quel que soit l'espace. Un éclairage de qualité ne peut être obtenu qu'avec des luminaires de qualité.

Chez ROVASI, nous misons sur la qualité totale : la haute qualité de nos luminaires fait toute la différence. Notre gamme de produits – systématiquement fabriqués dans nos locaux et faisant l'objet d'une attention des plus minutieuses – est conçue avec les meilleurs matériaux et toujours conformément aux critères stricts des normes actuellement en vigueur.

Notre désir de bien faire les choses et de satisfaire l'utilisateur nous permet de proposer des pièces de qualité et de longue durée. Toujours impliqués dans un processus d'amélioration continue, nous disposons d'un système de contrôle de qualité qui garantit un suivi permanent et professionnel de nos produits.

Notre certification ISO 9001:2008 relative à la conception et la fabrication de luminaires en est la garantie

At ROVASI we are aware of the importance of environmental issues. We are conscious that any activity affects and conditions the life circumstances of people and society both today and in the future, so we work day by day to ensure that the impact is the smallest possible.

Our ISO 14.001:2004 certification guarantees that, at ROVASI, we follow an efficient environmental management system, balancing the profitability of the firm with the reduction of its environmental impact.

This way, we work conscientiously to protect the environmental inheritance of future generations.

Environment > Medioambiente > Environnement

En ROVASI estamos sensibilizados con el medio ambiente. Siendo conscientes que cualquier actividad afecta y condiciona las circunstancias de vida de las personas y la sociedad actual y venidera, trabajamos día a día para que el impacto provocado sea lo más positivo posible.

La certificación ISO 14.001:2004 garantiza que en ROVASI seguimos un sistema de gestión medioambiental eficaz logrando un equilibrio entre el mantenimiento de la rentabilidad de la firma y la reducción del impacto medioambiental.

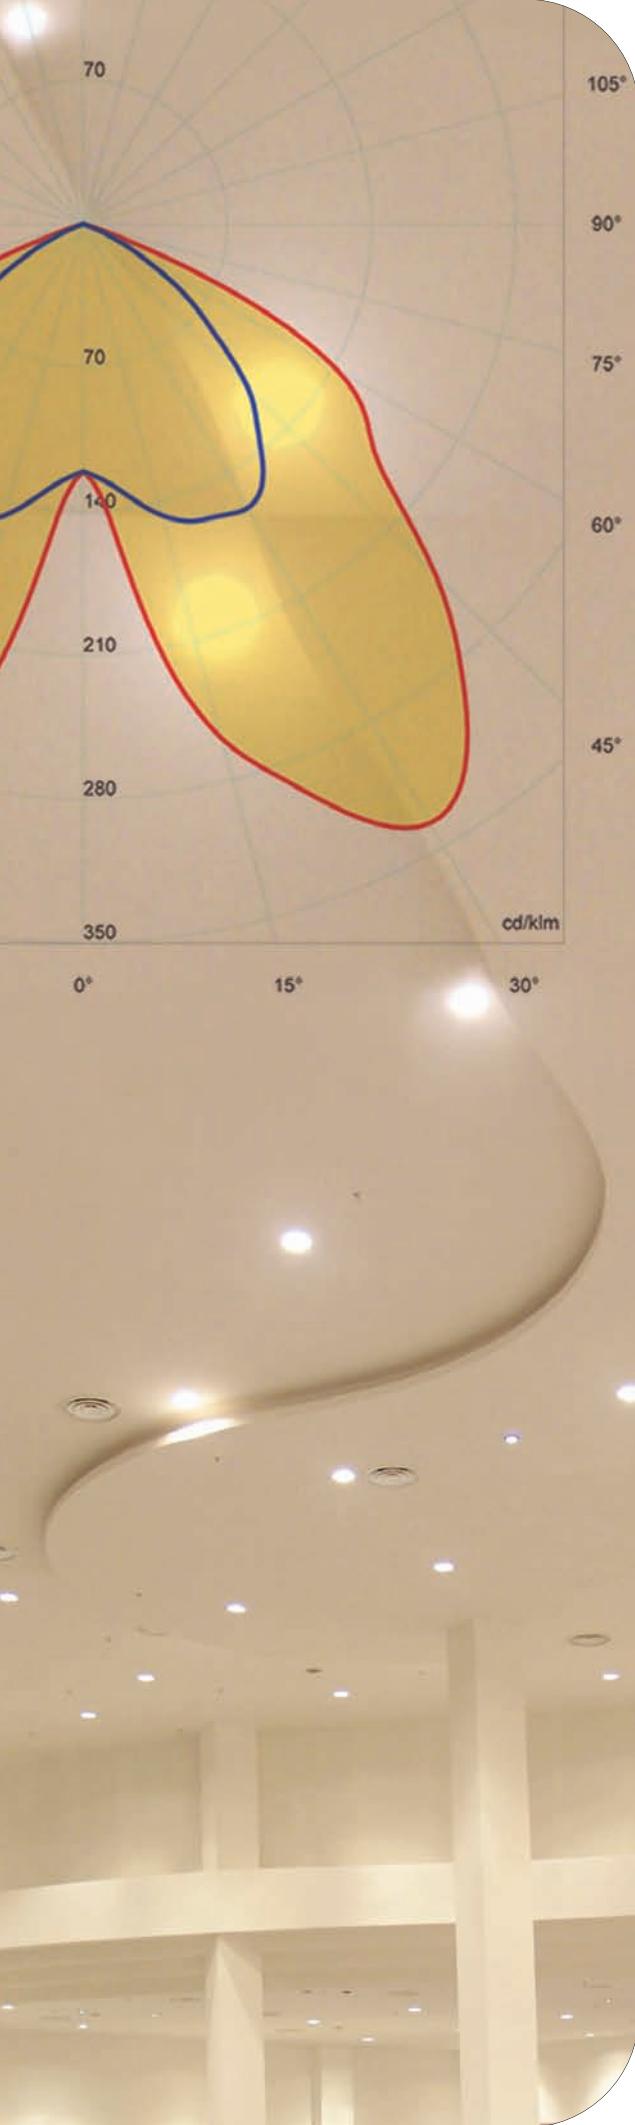

De este modo, trabajamos concientudamente para dejar una buena herencia medioambiental a las generaciones futuras.

Chez ROVASI, nous sommes sensibles à l'environnement. Conscients que toute activité a une incidence sur les conditions de vie des personnes et de la société d'aujourd'hui et de demain, nous travaillons jour après jour pour que cet impact soit le plus positif possible.

ROVASI bénéficie de la certification ISO 14.001:2004, ce qui implique la mise en œuvre d'un système de gestion environnementale efficace, via un équilibre entre le maintien de la rentabilité de l'entreprise et la réduction de l'impact sur l'environnement.

Ceci nous permet de travailler consciencieusement afin de laisser un bel héritage environnemental aux générations futures.

Because every project is unique and so requires a particular type of luminaire, we have more than 4,000 different references, with a variety of designs, dimensions, materials and light sources, allowing you to find the one that best suits your needs.

At the same time, we also leave the door open to more products because we can customise and adapt any luminaire to the characteristics of your project.

Our skilled team of experts will support you in carrying out any project with an absolute guarantee of success. Thus the highest level of professionalism and personalised technical support will always be available to you.

Project › Proyecto › Projet

Porque cada proyecto es único y requiere de un tipo de luminaria diferente, disponemos de más de 4.000 referencias distintas, con diseños, dimensiones, materiales y fuentes de luz diversas para que encuentre la que mejor se adapte a las necesidades del proyecto.

Al mismo tiempo, dejamos también una puerta abierta a más productos pudiendo personalizar y acomodar cualquier luminaria a las características del proyecto.

Nuestro potente equipo de especialistas, le acompañarán para que lleve a cabo cualquier proyecto con absoluta garantía de éxito. Dispondrá de este modo del más alto nivel de profesionalidad y de un seguimiento técnico individualizado.

Parce que chaque projet est unique et nécessite un type de luminaire spécifique, nous disposons de plus de 4.000 références, aux designs, dimensions, sources lumineuses et matériaux différents, afin que vous puissiez trouver le modèle qui s'adapte le mieux aux besoins de votre projet.

Néanmoins, nous laissons également la porte ouverte à d'autres produits puisque nous avons la possibilité de personnaliser et d'adapter tous les luminaires aux caractéristiques du projet.

Notre très compétente équipe de spécialistes vous accompagnera afin de vous permettre de mener à bien votre projet, quel qu'il soit, avec une garantie de succès absolue.

Vous disposerez ainsi d'un excellent professionnalisme et d'un suivi technique personnalisé.

DOWNLIGHTS

Recessed ceiling-mounted downlight.

Circular design available in 7 diameters, from 110 mm to 300 mm.

Total lighting control: high performance and high efficiency.

Large range of sizes and reflectors to obtain the best photometric results.

High-purity (99.99%) aluminium reflector available in various finishes.

Die-cast aluminium trim available in various finishes.

Ceiling-mounted using galvanised steel support with screws or springs.

Range of decorative and optical accessories.

Glass accessory available to increase the protection rating to IP65 (optional polycarbonate diffuser for references with compact fluorescent lamp).

Light sources available: halogen, compact fluorescent, metal halide and sodium.

Downlight empotable en techo.

Diseño circular disponible en 7 diámetros: de 110 mm a 300 mm.

Control total de la luz: elevado rendimiento y gran eficacia.

Gran variedad de dimensiones y reflectores para obtener el mejor resultado fotométrico.

Reflector de gran pureza (99,99%) aluminio disponible en varios acabados.

Aro de aluminio inyectado disponible en distintos acabados.

Montaje al techo mediante soporte de acero galvanizado con tornillos o muelles.

Variedad de accesorios decorativos y ópticos.

Dispone de vidrio accesorio para incrementar el índice de protección a IP65 (opcional difusor de policarbonato para referencias con lámpara fluorescente compacta).

Fuentes disponibles: lámparas halógenas, fluorescentes compactas, de halogenuros metálicos y sodio.

Downlight encastrable.

Modèle circulaire disponible en 7 diamètres : de 110 mm à 300 mm.

Contrôle total de la lumière : rendement élevé et grande efficacité.

Grand choix de dimensions et de réflecteurs permettant d'obtenir un résultat photométrique optimal.

Réflecteur en aluminium de grande pureté (99,99%), disponible en différentes finitions.

Collerette en aluminium injecté, disponible en différentes finitions.

Montage au plafond par support en acier galvanisé à ressorts ou à vis.

Choix d'accessoires décoratifs et optiques.

Verre accessoire avec anneau en aluminium qui permet d'augmenter l'indice de protection à IP65 (diffuseur en polycarbonate en option pour les références avec lampe fluorescente compacte).

Sources disponibles : lampes halogènes, fluorescentes compactes, aux iodures métalliques et sodium.

BATIMENT SAGI-BRULON. Paris - France.

CUMULUS SALO. Koskikatu - Finland

AL TADHAMON INTERNATIONAL ISLAMIC BANK. San'a - Yemen

Ceilings with little space for recessed mounting.

Shopping centres, hotels, offices, airports, service stations, restaurants, shops, galleries, museums, homes, workplaces, hospitals, universities, conference halls, meeting rooms, showrooms, religious buildings, banks, and so on.

Techos con poco espacio donde empotrar.

Centros comerciales, hoteles, oficinas, aeropuertos, estaciones de servicio, restaurantes, tiendas, galerías, museos, viviendas, centros de trabajo, hospitales, universidades, salas de conferencias, salas de reuniones, concesionarios, edificios religiosos, bancos y otras aplicaciones.

Plafonds offrant peu d'espace pour encastreer les luminaires.

Centres commerciaux, hôtels, bureaux, aéroports, stations-service, restaurants, boutiques, galeries, musées, logements, espaces de travail, hôpitaux, universités, salles de conférence, salles de réunion, concessionnaires, édifices religieux, banques et autres applications.

Recessed ceiling-mounted downlight with a low height (85 mm). Circular design available in 3 diameters: 170 mm, 200 mm and 225 mm.

Total lighting control: high performance and high efficiency. High-purity (99.99%) aluminium reflector available in various finishes. Die-cast aluminium trim available in various finishes. Ceiling-mounted using galvanised steel support with screws. Range of decorative and optical accessories. Glass or polycarbonate accessory available to increase the protection rating to IP65. Light sources available: compact fluorescent lamps.

Downlight empotable en techo que se caracteriza por su baja altura (85 mm).

Diseño circular disponible en 3 diámetros: 170 mm, 200 mm y 225 mm.

Control total de la luz: elevado rendimiento y gran eficacia. Reflectores de gran pureza (99,99%) aluminio disponible en distintos acabados.

Aro de aluminio inyectado disponible en distintos acabados. Montaje al techo mediante soporte de acero galvanizado con tornillos.

Variedad de accesorios decorativos y ópticos. Dispone de accesorio de vidrio o policarbonato para incrementar el índice de protección a IP65.

Fuentes disponibles: lámparas fluorescentes compactas.

Downlight encastrable de faible hauteur (85 mm).

Modèle circulaire disponible en 3 diamètres : 170 mm, 200 mm et 225 mm.

Contrôle total de la lumière : rendement élevé et grande efficacité. Réflecteur en aluminium de grande pureté (99,99%), disponible en différentes finitions.

Collerette en aluminium injecté, disponible en différentes finitions. Montage au plafond par support en acier galvanisé à vis. Choix d'accessoires décoratifs et optiques.

Accessoire en verre ou polycarbonate avec anneau en aluminium qui permet d'augmenter l'indice de protection à IP65. Sources disponibles : lampes fluorescentes compactes.

Aluminium die-cast trim sealed cover glass or polycarbonate accessory fixed to the downlight by screws to achieve the IP65. For several lighting, sources and down-light dimensions. Ideal for humid environments, such as kitchens, bathrooms, saunas and exterior canopies. IP65 rating from below mounting surface. Fully protected against dust and against jets of water.

Accesorio fijo de cubierta estanca con aro de fundición de aluminio y vidrio o policarbonato fijado al downlight mediante tornillos, permite alcanzar la protección IP65. Para diferentes fuentes de lámparas y dimensiones de downlight. Ideal para ambientes húmedos, como cocinas, baños, saunas y porches exteriores. Protección IP65 bajo la superficie de montaje. Completamente protegido contra el polvo y chorros de agua.

Accessoire fixe de couvert étanche avec anneau en fonte d'aluminium et verre ou polycarbonate fixé au downlight par vis pour arriver à la protection IP65. Pour différentes types de lampes et dimensions de downlights. Idéal pour ambients humides, comme cuisines, salles de bain, saunas et porches extérieurs. Protection IP65 sous plafond. Complètement protégé contre la poussière et jet d'eau.

SHALLOW

Compact Fluorescent Lamp
Lámpara Fluorescente Compacta
Lampe Fluorescente Compacte

Fixed recessed very low-height downlight. Die-cast aluminium trim. High purity (99,99%) sandblasted anodized aluminium reflector. Opal glass and aluminium trim cover easily fixed to the downlight without the need for tools. Ceiling mounted by three mounting points. Remote control gear.

Downlight empotrable de muy baja altura fijo. Aro de aluminio inyectado. Reflector de aluminio de gran pureza (99,99%) anodizado arenado. Aro de aluminio con difusor de cristal opal fijado fácilmente al downlight sin necesidad de herramientas. Montaje al techo mediante tres puntos de fijación. Equipo eléctrico separado.

Downlight très faible hauteur à encastrer fixe. Anneau en aluminium injecté. Réflecteur en aluminium de grande pureté (99,99%) anodisé sablé. Cadre rond d'aluminium avec diffuseur de verre opale intégré fixé facilement au downlight sans besoin d'outil. Montage au plafond par trois points de fixation. Boîtier avec ballast séparé.

ACCESSORIES ACCESORIOS ACCESSOIRES

Cinemas, conference halls, theatres, spaces where maintenance is to be performed from within the ceiling void.

Cines, salas de conferencias, teatros, espacio donde se requiera un mantenimiento desde la parte trasera del techo.

Cinémas, salles de conférence, théâtres, espaces exigeant une maintenance par le faux plafond.

TRAS

Recessed ceiling-mounted downlight, with maintenance carried out from within the ceiling void.

Circular design available in 4 diameters. 290 mm, 335 mm, 410 mm and 510 mm.

Total lighting control: high performance and high efficiency.

High-purity (99.99%) aluminium reflector.

Ceiling-mounted using galvanised steel support with screws.

Light sources available: halogen, compact fluorescent, metal halide and sodium.

Downlight empotable en techo con mantenimiento desde la parte trasera del techo.

Diseño circular disponible en 4 diámetros: 290 mm, 335 mm, 410 mm y 510 mm.

Control total de la luz: elevado rendimiento y gran eficacia.

Reflector de gran pureza (99,99%) aluminio.

Montaje al techo mediante soporte de acero galvanizado con tornillos.

Fuentes disponibles: lámparas halógenas, fluorescentes compactas, de halogenuros metálicos y sodio.

Downlight encastrable qui permet une maintenance par le faux plafond.

Modèle circulaire disponible en 4 diamètres : 290 mm, 335 mm, 410 mm et 510 mm.

Contrôle total de la lumière : rendement élevé et grande efficacité.

Réflecteur en aluminium de grande pureté (99,99%), disponible en différentes finitions.

Montage au plafond par support en acier galvanisé à vis.

Sources disponibles : lampes halogènes, fluorescentes compactes, aux iodures métalliques et sodium.

Offices, workplaces with screens, laboratories, spaces where glare must be reduced and visual comfort improved.

Oficinas, centros de trabajo con pantallas, laboratorios, espacios donde se requiera evitar el deslumbramiento y aumentar el confort visual.

Bureaux, espaces de travail sur écran, laboratoires, espaces où il est nécessaire d'éviter tout éblouissement et d'accroître le confort visuel.

CROSS SCREEN

Recessed anti-glare ceiling-mounted downlight.
Circular design available in 4 diameters (200 mm, 225 mm, 255 mm and 300 mm).

Total lighting control: high performance and high efficiency.
Reflector with cross screen (4 cells).
High-purity (99.99%) aluminium reflector.
Die-cast aluminium trim available in various finishes.
Ceiling-mounted using galvanised steel support with screws.
Glass accessory available to increase the protection rating to IP65 (optional polycarbonate diffuser for references with compact fluorescent lamp).
Light sources available: compact fluorescent and metal halide lamps.

Downlight circular empotable en techo anti-deslumbrante.
Diseño circular disponible en 4 diámetros: 200 mm, 225 mm, 255 mm y 300 mm.

Control total de la luz: elevado rendimiento y gran eficacia.
Reflector con rejilla en cruz (4 celdas).
Reflector de gran pureza (99,99%) aluminio.
Aro de aluminio inyectado disponible en distintos acabados.
Montaje al techo mediante soporte de acero galvanizado con tornillos.
Dispone de vidrio accesorio para incrementar el índice de protección a IP65 (opcional difusor de policarbonato para referencias con lámpara fluorescente compacta).
Fuentes disponibles: lámparas fluorescentes compactas y halogenuros metálicos.

Downlight encastrable au plafond anti-éblouissement.
Modèle circulaire disponible en 4 diamètres : 200 mm, 225 mm, 255 mm et 300 mm.
Contrôle total de la lumière : rendement élevé et grande efficacité.
Réflecteur avec grille en croix (4 cellules).
Réflecteur en aluminium de grande pureté (99,99%), disponible en différentes finitions.
Collerette en aluminium injecté, disponible en différentes finitions.
Montage au plafond par support en acier galvanisé à vis.
Verre accessoire avec anneau en aluminium qui permet d'augmenter l'indice de protection à IP65 (diffuseur en polycarbonate en option pour les références avec lampe fluorescente compacte).
Sources disponibles : lampes fluorescentes compactes et aux iodures métalliques.

Polycarbonate diffusers only for CFL. Difusor de policarbonato solo para lámparas fluorescentes compactas. Diffuseur en polycarbonate seulement pour lampes fluorescentes compactes.	

Aluminium die-cast trim sealed cover glass or polycarbonate accessory fixed to the downlight by screws to achieve the IP65. For several lighting, sources and down-light dimensions. Ideal for humid environments, such as kitchens, bathrooms, saunas and exterior canopies. IP65 rating from below mounting surface. Fully protected against dust and against jets of water.

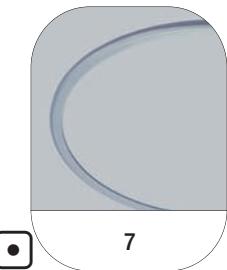

Accesorio fijo de cubierta estanca con aro de fundición de aluminio y vidrio o policarbonato fijado al downlight mediante tornillos, permite alcanzar la protección IP65. Para diferentes fuentes de lámparas y dimensiones de downlight. Ideal para ambientes húmedos, como cocinas, baños, saunas y porches exteriores. Protección IP65 bajo la superficie de montaje. Completamente protegido contra el polvo y chorros de agua.

Accessoire fixe de couvert étanche avec anneau en fonte d'aluminium et verre ou polycarbonate fixé au downlight par vis pour arriver à la protection IP65. Pour différentes types de lampes et dimensions de downlights. Idéal pour ambients humides, comme cuisines, salles de bain, saunas et porches extérieurs. Protection IP65 sous plafond. Complètement protégé contre la poussière et jet d'eau.

Fixed recessed downlight. Die-cast aluminium trim. Aluminium heat sink diffuser. High purity (99,99%) two parts cross-screen anodized aluminium reflector: top part facetted, bottom sandblasted. Safety tempered glass divider clear as standard. Mounted to the ceiling by galvanized support with screws. Electrical unit must be ordered separately.

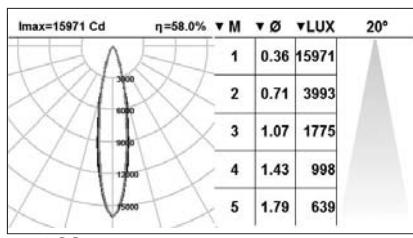

Downlight empotable fijo. Aro de aluminio inyectado. Disipador del calor de aluminio. Reflecto en aluminio de gran pureza (99,99%) con rejilla en cruz anodizado de dos partes: parte superior facetada, inferior arenada. Vidrio templado intermedio de protección clara como estándar. Montaje al techo mediante soporte de acero galvanizado con tornillos. El equipo eléctrico debe pedirse por separado.

Downlight à encastrer fixe. Anneau en aluminium injecté. Diffuseur de la chaleur en aluminium. Réflecteur en aluminium de grande pureté (99,99%) avec grille croix anodisé de deux parts: partie supérieure facettée, inférieure sablée. Verre tempérée intermédiaire de protection clair comme standard. Fixation au plafond avec des équerres en acier galvanisé réglables par vis. Equipement électrique à commander séparément.

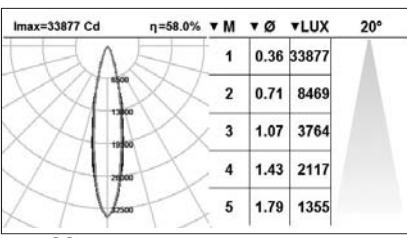

Fixed recessed downlight. Die-cast aluminium trim. High purity (99,99%) two parts cross-screen anodized aluminium reflector: top part hammered, bottom sandblasted. Safety tempered glass divider clear as standard. Mounted to the ceiling by galvanized support with screws. Electrical unit must be ordered separately.

Downlight empotable fijo. Aro de aluminio inyectado. Reflecto en aluminio de gran pureza (99,99%) con rejilla en cruz anodizado de dos partes: parte superior martillada, inferior arenada. Vidrio templado intermedio de protección clara como estándar. Montaje al techo mediante soporte de acero galvanizado con tornillos. El equipo eléctrico debe pedirse por separado.

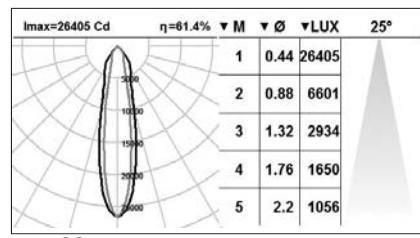

Downlight à encastrer fixe. Anneau en aluminium injecté. Réflecteur en aluminium de grande pureté (99,99%) avec grille croix anodisé de deux parts: partie supérieure martelée, inférieure sablée. Verre tempérée intermédiaire de protection clair comme standard. Fixation au plafond avec des équerres en acier galvanisé réglables par vis. Equipement électrique à commander séparément.

Exhibition areas, museums, sales areas, corridors, and so on.
The asymmetrical distribution of the light of the wall washers illuminates
the wall, drawing attention to it, while the downlight component also
lights the floor.

**Zonas de exposición, museos, áreas de venta, pasillos
y otras aplicaciones.**

La distribución asimétrica de la luz de los bañadores ilumina la
pared enfatizándola mientras que el componente downlight también
ilumina el suelo.

Espaces d'exposition, musées, espaces de vente, couloirs
et autres applications.

La distribution asymétrique de la lumière des appareils à faisceau mural
éclaire le mur en le mettant en valeur, tandis que le composant downlight
illumine également le sol.

WALL-WASHERS

Asymmetrical recessed, ceiling-mounted downlight.
Circular design available in 5 diameters, from 170 mm to 300 mm.
Total lighting control: high performance and high efficiency.
High-purity (99.99%) aluminium reflector.
Die-cast aluminium trim available in various finishes.
Ceiling-mounted using galvanised steel support with screws.
Glass accessory available to increase the protection rating to IP65
(optional polycarbonate diffuser for references with compact
fluorescent lamp).
Light sources available: halogen and compact fluorescent lamps.

Downlight asimétrico empotrado en techo.
Diseño circular disponible en 5 diámetros, de 170 mm a 300 mm.
Control total de la luz: elevado rendimiento y gran eficacia.
Reflector de gran pureza (99,99%) aluminio.
Aro de aluminio inyectado disponible en distintos acabados.
Montaje al techo mediante soporte de acero galvanizado con
tornillos.
Dispone de vidrio accesorio para incrementar el índice de
protección a IP65 (opcional difusor de policarbonato para
referencias con lámpara fluorescente compacta).
Fuentes disponibles: lámparas halógenas y fluorescentes
compactas.

Downlight asymétrique encastrable au plafond.
Modèle circulaire disponible en 5 diamètres, de 170 mm à 300 mm.
Contrôle total de la lumière : rendement élevé et grande efficacité.
Réflecteur en aluminium de grande pureté (99,99%), disponible en
différentes finitions.
Collerette en aluminium injecté, disponible en différentes finitions.
Montage au plafond par support en acier galvanisé à vis.
Verre accessoire avec anneau en aluminium qui permet d'augmenter
l'indice de protection à IP65 (diffuseur en polycarbonate en option pour
les références avec lampe fluorescente compacte).
Sources disponibles : lampes halogènes et fluorescentes compactes.

Aluminium die-cast trim sealed cover glass or polycarbonate accessory fixed to the downlight by screws to achieve the IP65. For several lighting, sources and down-light dimensions. Ideal for humid environments, such as kitchens, bathrooms, saunas and exterior canopies. IP65 rating from below mounting surface. Fully protected against dust and against jets of water.

Accesorio fijo de cubierta estanca con aro de fundición de aluminio y vidrio o policarbonato fijado al downlight mediante tornillos, permite alcanzar la protección IP65. Para diferentes fuentes de lámparas y dimensiones de downlight. Ideal para ambientes húmedos, como cocinas, baños, saunas y porches exteriores. Protección IP65 bajo la superficie de montaje. Completamente protegido contra el polvo y chorros de agua.

Accessoire fixe de couvert étanche avec anneau en fonte d'aluminium et verre ou polycarbonate fixé au downlight par vis pour arriver à la protection IP65. Pour différentes types de lampes et dimensions de downlights. Idéal pour ambients humides, comme cuisines, salles de bain, saunas et porches extérieurs. Protection IP65 sous plafond. Complètement protégé contre la poussière et jet d'eau.

To create a special lighting effect in any space, hotels, offices, airports, service stations, restaurants, shops, galleries, museums, homes, workplaces, hospitals, universities, conference halls, meeting rooms, showrooms, religious buildings, banks and so on.

Para dar un efecto especial en la iluminación de cualquier espacio, hoteles, oficinas, aeropuertos, estaciones de servicio, restaurantes, tiendas, galerías, museos, viviendas, centros de trabajo, hospitales, universidades, salas de conferencias, salas de reuniones, concesionarios, edificios religiosos, bancos y otras aplicaciones.

Pour donner un effet spécial à l'éclairage de tout espace : hôtels, bureaux, aéroports, stations-service, restaurants, boutiques, galeries, musées, logements, espaces de travail, hôpitaux, universités, salles de conférence, salles de réunion, concessionnaires, édifices religieux, banques et autres applications.

EFFECT

Recessed ceiling-mounted downlight.

Circular design available in a diameter of 240 mm.

Double die-cast aluminium trim and glass diffuser with internal reflector to direct the light.

Total lighting control: high performance and high efficiency.

Ceiling-mounted using galvanised steel support with screws.

Die-cast aluminium trim and flush glass diffuser easily attached to the downlight without the need for tools.

Light sources available: compact fluorescent lamps.

Downlight empotable en techo.

Diseño circular disponible en diámetro 240 mm.

Doble aro de aluminio inyectado y difusor de vidrio raso con reflector interno para dirigir la luz.

Control total de la luz: elevado rendimiento y gran eficacia.

Montaje al techo mediante soporte de acero galvanizado con tornillos.

Aro con vidrio raso fácilmente fijado al downlight sin necesidad de herramientas.

Fuentes disponibles: lámparas fluorescentes compactas.

Downlight encastrable au plafond.

Modèle circulaire disponible en 240 mm de diamètre.

Double collerette en aluminium injecté et diffuseur en verre avec réflecteur interne pour diriger la lumière.

Contrôle total de la lumière : rendement élevé et grande efficacité.

Montage au plafond par support en acier galvanisé à vis.

Collerette ronde en aluminium avec verre intégré fixable facilement au downlight sans besoin d'outil.

Sources disponibles : lampes fluorescentes compactes.

QUADRATIC

Recessed ceiling-mounted downlight.

Square design available in 2 sizes, 200 × 200 mm and 265 × 265 mm.

Die-cast aluminium frame available in various finishes.

Total lighting control: high performance and high efficiency.

High-purity (99.99%) aluminium reflector.

Ceiling-mounted using galvanised steel support with screws.

The asymmetrical version of this luminaire can light wall and floor.

Also available in a version with cross screen (4 cells) for greater visual comfort for work areas with computer screens.

Range of decorative and optical accessories.

Glass accessory available to increase the protection rating to IP65 (optional polycarbonate diffuser for references with compact fluorescent lamp).

Light sources: halogen, compact fluorescent lamps and metal halide lamps.

Downlight empotable en techo.

Diseño cuadrado disponible en 2 dimensiones, 200 × 200 mm y 265 × 265 mm.

Marco de aluminio inyectado disponible en distintos acabados.

Control total de la luz: elevado rendimiento y gran eficacia.

Reflector de gran pureza (99,99%) aluminio.

Montaje al techo mediante soporte de acero galvanizado con tornillos.

La versión asimétrica de esta luminaria permite iluminar la pared y el suelo.

También disponible la versión con rejilla en cruz (4 celdas) para aumentar el confort visual en zonas de trabajo con pantallas.

Variedad de accesorios decorativos y ópticos.

Dispone de vidrio accesorio para incrementar el índice de protección a IP65 (opcional difusor de policarbonato para referencias con lámpara fluorescente compacta).

Fuentes disponibles: lámparas disponibles: lámparas halógenas, fluorescentes compactas y halogenuros metálicos.

Downlight encastrable au plafond.

Modèle carré disponible en 2 dimensions : 200 × 200 mm et 265 × 265 mm.

Cadre en aluminium injecté, disponible en différentes finitions.

Contrôle total de la lumière : rendement élevé et grande efficacité.

Réflecteur en aluminium de grande pureté (99,99%), disponible en différentes finitions.

Montage au plafond par support en acier galvanisé à vis.

La version asymétrique de ce luminaire permet d'éclairer à la fois le mur et le sol.

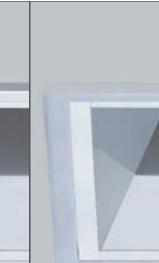

Également disponible en version avec grille en croix (4 cellules) pour accroître le confort visuel dans les zones de travail sur écran.

Choix d'accessoires décoratifs et optiques.

Verre accessoire avec cadre en aluminium qui permet d'augmenter l'indice de protection à IP65 (diffuseur en polycarbonate en option pour les références avec lampe fluorescente compacte).

Sources disponibles: lampes halogènes, fluorescentes compactes et aux iodures métalliques.

Shops, hotels, restaurants, homes and so on.
Luminaires with a trimless appearance, designed to create exclusive, clean
and ethereal lighting that creates a suggestive space.

Tiendas, hoteles, restaurantes, viviendas y otras aplicaciones.
Luminarias con efecto sin-aro, diseñadas para crear una iluminación
exclusiva, limpia y etérea creando un espacio sugerente.

Boutiques, hôtels, restaurants, logements et autres applications.
Luminaires à effet sans collarette, conçus pour un éclairage exclusif, propre
et éthéré créant un espace suggestif.

BSM

Recessed ceiling-mounted circular downlight.
Aluminium body and shade.

The luminaire is installed in the ceiling void.

Ceiling-mounted with spring clamps.

Fixed and swivel versions.

Light sources: halogen and metal halide lamps.

Downlight circular empotable en techo.

Cuerpo y pantalla de aluminio.

La luminaria queda instalada en la parte trasera del techo.

Montaje al techo por muelles de fijación.

Versión fija u orientable.

Fuentes disponibles: lámparas halógenas y halogenuros metálicos.

Downlight circulaire encastrable au plafond.

Corps et écran en aluminium.

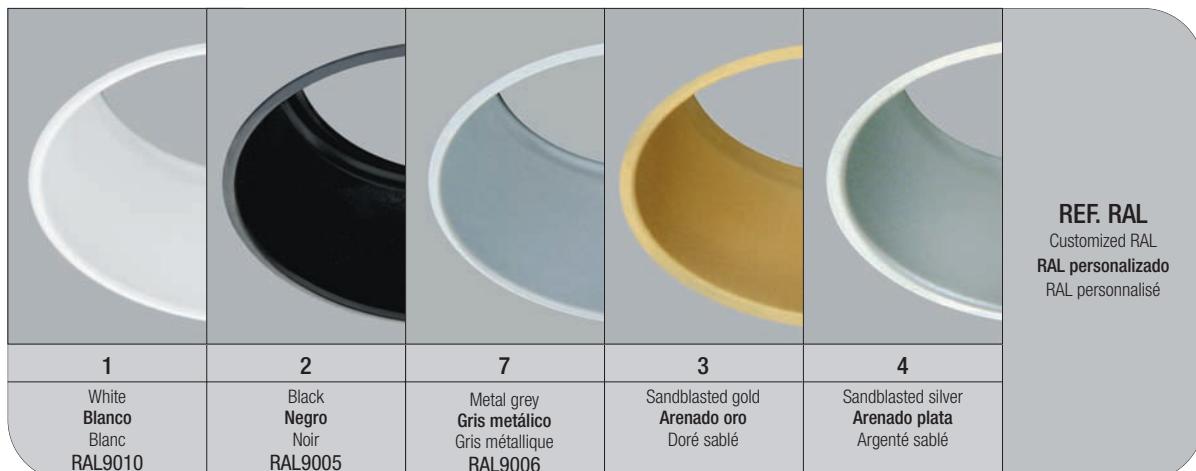

Le luminaire est installé dans le faux plafond.

Montage au plafond par ressorts de fixation.

Version fixe ou orientable.

Sources disponibles: lampes halogènes et aux iodures métalliques.

SHADE • PANTALLA • ÉCRAN

To complete the effect of this luminaire, we suggest that the circle be painted the same RAL color as the ceiling. Please, ask us for more information.

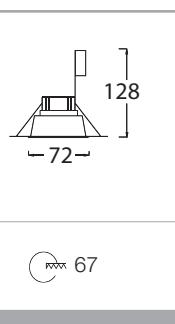

Para completar el efecto de esta luminaria, sugerimos que el círculo esté pintado del mismo color RAL que el techo. Por favor, consultenos sobre este punto.
Pour un effet complet, nous vous conseillons de peindre le cercle intérieur de la même couleur RAL que le plafond. Nous consulter pour plus de détails.

PRIVATE VILLAGE. Barcelona

Created to bring sophistication and elegance to the lighting of shops, hotels, restaurants, homes, and large spaces.

The luminaire is completely integrated into the ceiling to obtain a clean space and a soft light.

Creadas para aportar sofisticación y elegancia en la iluminación de tiendas, hoteles, restaurantes, viviendas y variedad de espacios.
La luminaria se integra completamente al techo obteniendo así un espacio limpio con luz volátil.

Créés pour apporter sophistication et élégance à l'éclairage de boutiques, d'hôtels, de restaurants, de logements et de grands espaces.

Le luminaire s'intègre complètement au plafond, offrant ainsi un espace net et une lumière volatile.

VOLATILE STAR

Recessed ceiling-mounted trimless downlight.
Circular design with a range of diameters and sizes, with diameters from 115 mm to 279 mm.
To complete the effect, we suggest that the circle be painted the same RAL colour as the ceiling. Ask us for more information.
High-purity (99.99%) aluminium reflector available in various finishes.
Light sources available: halogen, compact fluorescent and metal halide lamps.

Downlight empotable en techo sin aro.
Diseño circular con variedad de diámetros y dimensiones, de diámetro 115 mm a 279 mm.
Para dar un efecto total, sugerimos pintar el círculo con el mismo color RAL que el techo. Puede consultarnos sobre este aspecto.
Reflector de gran pureza (99,99%) aluminio disponible en varios acabados.
Fuentes disponibles: lámparas halógenas, fluorescentes compactas y halogenuros metálicos.

Downlight circulaire encastrable au plafond sans collarette.
Plusieurs dimensions avec 4 diamètres aux choix, de 115 mm à 279 mm.
Pour un effet complet, nous vous conseillons de peindre le cercle de la même couleur RAL que le plafond. Nous consulter pour plus d'informations.
Réflecteur en aluminium de grande pureté (99,99 %), disponible en différentes finitions.
Sources disponibles : lampes halogènes, fluorescentes compactes et aux iodures métalliques.

Created to bring sophistication and elegance to the lighting of shops, hotels, restaurants and homes.

The luminaire is completely integrated into the ceiling to obtain a clean space and a soft light.

Creadas para aportar sofisticación y elegancia en la iluminación de tiendas, hoteles, restaurantes, viviendas y variedad de espacios.
La luminaria se integra completamente al techo obteniendo así un espacio limpio con luz volátil.

Créés pour apporter sophistication et élégance à l'éclairage de boutiques, d'hôtels, de restaurants, de logements et de grands espaces.
Le luminaire s'intègre complètement au plafond, offrant ainsi un espace net et une lumière volatile.

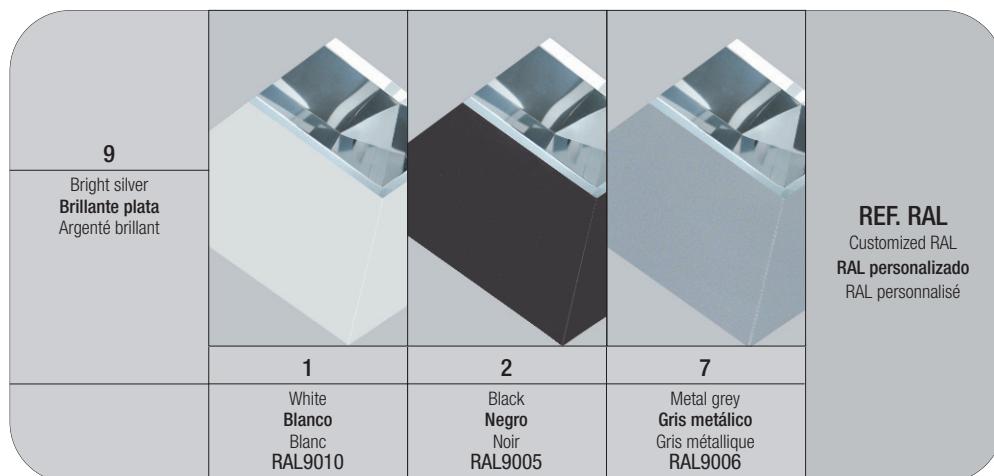

VOLATILE QUADRATIC

Recessed ceiling-mounted trimless downlight.
Square design available in 2 sizes: 206 × 206 mm and 270 × 270 mm.
To complete the effect, we suggest that the interior frame be painted
the same RAL colour as the ceiling. Ask us for more information.
High-purity (99.99%) aluminium reflector.
Light sources available: compact fluorescent and metal halide lamps.

Downlights empotable en techo sin aro.
Diseño cuadrado en versión disponible en 2 dimensiones: 206 ×
206 mm y 270 × 270 mm.
Para dar un efecto total, sugerimos pintar el marco interior con el
mismo color RAL que el techo. Puede consultarnos sobre este
aspecto.
Reflector de aluminio de gran pureza (99,99%) aluminio.
Fuentes disponibles: lámparas fluorescentes compactas y
halogenuros metálicos.

Downlight encastrable au plafond sans collerette.
Modèle carré disponible en 2 dimensions : 206 × 206 mm et 270 ×
270 mm.
Pour un effet complet, nous vous conseillons de peindre le cadre
intérieur de la même couleur RAL que le plafond. Nous consulter pour
plus d'informations.
Réflecteur en aluminium de grande pureté (99,99%).
Sources disponibles : lampes fluorescentes compactes et aux iodures
métalliques.

HYDROS

Recessed ceiling-mounted downlight with IP54 protection from below.
Circular design available in 4 diameters: 150 mm, 190 mm, 220 mm and 240 mm.
Total lighting control: high performance and high efficiency.
Double trim of die-cast aluminium and flush glass.
Aluminium trim available in various finishes.
High-purity (99.99%) aluminium reflector available in various finishes.
Protection rating against dust and moisture: IP54 from below.
Protection rating of resistance to harmful mechanical impacts: IK5.
Ceiling-mounted using galvanised steel support with screws.
Trim with glass that is easily attached to the downlight without the need for tools.
Aluminium trim available in various finishes.
Different glass and colour combinations for customising a space.
Light sources available: halogen, compact fluorescent, metal halide and sodium lamps.

Downlight empotable en techo con protección IP54 desde abajo.
Diseño circular disponible en 4 diámetros: 150 mm, 190 mm, 220 mm y 240 mm.
Control total de la luz: elevado rendimiento y gran eficacia.
Doble aro de aluminio inyectado y cristal raso.
Aro de aluminio disponible en varios acabados.
Reflector de gran pureza (99,99%) aluminio disponible en varios acabados.
Índice de protección contra polvo y humedad: IP54 bajo techo.
Índice de protección contra impactos mecánicos nocivos: IK5.
Montaje al techo mediante soporte de acero galvanizado con tornillos.
Aro con cristal fácilmente fijado al downlight sin necesidad de herramientas.
Cristales en distintas combinaciones o colores para personalizar el espacio.
Fuentes disponibles: lámparas halógenas, fluorescentes compactas, halogenuros metálicos y sodio.

Downlight encastrable avec étanchéité IP54 par le dessous.
Modèle circulaire disponible en 4 diamètres : 150 mm, 190 mm, 220 mm et 240 mm.
Contrôle total de la lumière : rendement élevé et grande efficacité.
Double collerette en aluminium injecté avec verre.
Collerette en aluminium disponible en différentes finitions.
Réflecteur en aluminium de grande pureté (99,99%), disponible en différentes finitions.
Indice d'étanchéité à la poussière et à l'humidité : IP54 sous plafond.
Indice de résistance aux chocs mécaniques : IK5.
Montage au plafond par support en acier galvanisé à vis.
Collerette ronde en aluminium avec verre intégré fixable facilement au downlight sans besoin d'outil.
Multiples combinaisons et coloris de verre permettant de personnaliser l'espace.
Sources disponibles : lampes halogènes, fluorescentes compactes, aux iodures métalliques et à sodium.

CULTURAL CENTRE L'ATLÀNTIDA. Vic - Barcelona

Humidity environments or areas that must be sealed to guarantee a hygienic space.
Created to bring sophistication and elegance to the lighting of shops, hotels, restaurants,
homes, and large spaces.

The luminaire is completely integrated into the ceiling to obtain a clean space and a soft light.

**Ambientes con humedad o espacios donde se requiere estanqueidad para
garantizar la higiene del espacio.**

Creadas para aportar sofisticación y elegancia en la iluminación de tiendas, hoteles,
restaurantes, residencias y grandes espacios.

**La luminaria se integra completamente al techo obteniendo así un espacio limpio
con luz volátil.**

Atmosphères humides ou espaces nécessitant une bonne étanchéité pour garantir l'hygiène.
Créés pour apporter sophistication et élégance à l'éclairage de boutiques, d'hôtels,
de restaurants, de résidences et de grands espaces.

Le luminaire s'intègre complètement au plafond, offrant ainsi un espace propre
et une lumière volatile.

VOLATILE 54

Recessed ceiling-mounted, trimless circular downlight.
Intermediate glass to guarantee the protection rating of IP54 from below.
Range of diameters and sizes, 4 diameters from 115 mm to 279 mm.
To complete the effect, we suggest that the circle be painted the same
RAL colour as the ceiling. Ask us for more information.
High-purity (99.99%) aluminium reflector.
Protection rating against dust and moisture: IP54 from below.
Light sources available: halogen, compact fluorescent and metal
halide lamps.

Downlight circular empotable en techo sin aro.
Vidrio intermedio para garantizar el índice de protección IP54 desde
abajo.
Variedad de diámetros y dimensiones, de diámetro 115 mm a
279 mm.
Para dar un efecto total, sugerimos pintar el círculo con el mismo
color RAL que el techo. Puede consultarnos sobre este aspecto.
Reflector de gran pureza (99,99%) aluminio.
Índice de protección contra humedad y polvo: IP54 bajo techo.
Fuentes disponibles: lámparas halógenas, fluorescentes compactas
y halogenuros metálicos.

Downlight circulaire encastrable sans collarette.
Verre intermédiaire garantissant une étanchéité IP54 par le dessous.
Plusieurs dimensions avec 4 diamètres aux choix, de 115 mm à
279 mm.
Pour un effet complet, nous vous conseillons de peindre le cercle de la
même couleur RAL que le plafond. Nous consulter pour plus
d'informations.
Réflecteur en aluminium de grande pureté (99,99%), disponible en
différentes finitions.
Indice d'étanchéité à la poussière et à l'humidité : IP54 sous plafond.
Sources disponibles : lampes halogènes, fluorescentes compactes
et aux iodures métalliques.

Shopping centres, hotels, offices, airports, service stations, restaurants, shops, workplaces, universities, conference halls, meeting rooms, and so on. Solution for solid ceilings or where there is not enough space for recessed mounting.

Centros comerciales, hoteles, oficinas, aeropuertos, estaciones de servicio, restaurantes, tiendas, centros de trabajo, universidades, salas de conferencias, salas de reuniones y otras aplicaciones.
Solución para techos sólidos o donde no hay suficiente espacio para empotrar.

Centres commerciaux, hôtels, bureaux, aéroports, stations-service, restaurants, boutiques, espaces de travail, universités, salles de conférence, salles de réunion et autres applications.
Solution pour plafonds solides ou zones n'offrant pas suffisamment d'espace pour encastrer.

SURFACE LUX

Surface-mounted luminaire made of aluminium sheet.
Neutral cylindrical body that integrates into the space, with more than 10 possible sizes to get the best photometric qualities.
Total lighting control: high performance and high efficiency.
High-purity (99.99%) aluminium reflector available in various finishes.
Aluminium body available in various finishes.
Also available in a version with cross screen (4 cells) for greater visual comfort for work areas with computer screens.
Light sources available: halogen, compact fluorescent and metal halide lamps.

Luminaria de superficie con cuerpo de plancha de aluminio.
Cuerpo neutro de forma cilíndrica que se integra en el espacio con más de 10 dimensiones posibles para obtener la mejor fotometría.
Control total de la luz: elevado rendimiento y gran eficacia.
Reflectores de gran pureza (99,99%) aluminio disponible en varios acabados.
Cuerpo de aluminio disponible en varios acabados.
También disponible la versión con rejilla en cruz (4 celdas) para zonas de trabajo con pantallas.
Fuentes disponibles: lámparas halógenas, fluorescentes compactas y halogenuros metálicos.

Downlight apparent avec corps en plaque d'aluminium.
Corps neutre de forme cylindrique s'intégrant dans l'espace. Plus de 10 dimensions possibles pour une photométrie optimale.
Contrôle total de la lumière : rendement élevé et grande efficacité.
Réflecteur en aluminium de grande pureté (99,99%), disponible en différentes finitions.
Corps en aluminium disponible en différentes finitions.
Également disponible en version avec grille en croix (4 cellules) pour les espaces de travail sur écran.
Sources disponibles : lampes halogènes, fluorescentes compactes et iodures métalliques.

Shopping centres, hotels, offices, airports, service stations, restaurants, shops, workplaces, universities, conference halls, meeting rooms, and so on.

Solution for solid ceilings or where there is not enough space
for recessed mounting.

Centros comerciales, hoteles, oficinas, aeropuertos, estaciones de servicio, restaurantes, tiendas, centros de trabajo, universidades, salas de conferencias, salas de reuniones y otras aplicaciones.

Solución para techos sólidos o donde no hay suficiente espacio para empotrar.

Centres commerciaux, hôtels, bureaux, aéroports, stations-service, restaurants, boutiques, espaces de travail, universités, salles de conférence, salles de réunion et autres applications.

Solution pour plafonds solides ou zones n'offrant pas suffisamment d'espace pour encastrer.

SURFACEBEL

Surface-mounted luminaire made of aluminium sheet.
Neutral cylindrical body available in 3 sizes.
Glass trim attached to the lower part of the luminaire. Glass available in various finishes.
Total lighting control: high performance and high efficiency.
High-purity (99.99%) aluminium reflector available in various finishes.
Aluminium body available in various finishes.
Light sources available: compact fluorescent lamps.

Luminaria de superficie con cuerpo de plancha de aluminio.
Cuerpo neutro de forma cilíndrica disponible en 3 dimensiones.
Aro de vidrio fijado en la parte inferior de la luminaria. Vidrio disponible en distintos acabados.
Control total de la luz: elevado rendimiento y gran eficacia.
Reflectores de gran pureza (99,99%) aluminio disponibles en distintos acabados.
Cuerpo de aluminio disponible en distintos acabados.
Fuentes disponibles: lámparas fluorescentes compactas.

Downlight apparent avec corps en plaque d'aluminium.
Corps neutre de forme cylindrique disponible en 3 dimensions.
Collerette de verre fixé dans la partie inférieure du luminaire. Verre disponible en plusieurs finitions.
Contrôle total de la lumière : rendement élevé et grande efficacité.
Réflecteur en aluminium de grande pureté (99,99%), disponible en différentes finitions.
Corps en aluminium disponible en différentes finitions.
Sources disponibles : lampes fluorescentes compactes.

416

Industrial facilities, shopping centres, leisure areas, sports centres, cafeterías, and so on.

Instalaciones industriales, centros comerciales, espacios de ocio, centros deportivos, comedores y otras aplicaciones.

Installations industrielles, centres commerciaux, espaces de loisirs, centres sportifs, espaces de restauration et autres applications.

SCOPE

Semi-recessed downlight with anodized aluminium reflector.
Reflector available in 2 diameters, 350 mm and 450 mm.
Can be combined with the suspensions HELIX or VERSION to achieve a complete effect.
Ceiling-mounted with die-cast aluminium trim.
Certain references are supplied with an interior reflector with safety glass to direct the light and thus obtain total lighting control.
Range of decorative accessories for attaching to the reflector.
Light sources available: halogen, compact fluorescent, metal halide, and sodium.

Downlight semi-empotrado con reflector de aluminio anodizado.
Reflector disponible en 2 diámetros, 350 mm y 450 mm.
Se puede combinar con suspensiones de la línea HELIX o VERSION para lograr un mayor efecto.
Fijado al techo mediante aro de aluminio inyectado.
Determinadas referencias se suministran con un reflector interior con vidrio de seguridad para dirigir la luz y obtener un control total sobre esta.
Variedad de accesorios decorativos para fijar al reflector.
Fuentes disponibles: lámparas halógenas, halógenas, fluorescentes compactas, de halogenuros metálicos y sodio.

Downlight semi-encastrable avec réflecteur en aluminium anodisé.
Réflecteur disponible en 2 diamètres : 350 mm et 450 mm.
Combinable avec les gammes de luminaires HELIX ou VERSION pour un meilleur effet.
Fixation au plafond par collarette en aluminium injecté.
Certaines références sont livrées avec un réflecteur intérieur muni d'un verre de sécurité afin de diriger et contrôler totalement la lumière.
Choix d'accessoires décoratifs à monter sur le réflecteur.
Sources disponibles : lampes halogènes, fluorescentes compactes, aux iodures métalliques et sodium.

Kitchens, bathrooms, saunas, porches, and high-humidity environments.
Hospitals, kitchens, schools, laboratories, areas that must be sealed to
guarantee a hygienic space.

Especialy designed for solid ceilings or where there is not enough space for
recessed mounting.

Cocinas, baños, saunas, porches, ambientes con humedad.
Hospitales, cocinas, colegios, laboratorios, zonas donde se requiere
estanqueidad para garantizar la higiene del espacio.
Especialmente diseñadas para techos sólidos o donde no hay
suficiente espacio para empotrar.

Cuisines, salles de bain, saunas, porches, atmosphères humides.
Hôpitaux, cuisines, collèges, laboratoires, lieux exigeant une bonne
étanchéité pour garantir l'hygiène.
Luminaires spécialement conçus pour les plafonds solides ou pour les
zones n'offrant pas suffisamment d'espace pour les encastrer.

CINQUANTA 4

Ceiling surface mounted downlight with IP54 protection.
Neutral cylindrical body available in 6 sizes.
Total lighting control: high performance and high efficiency.
Aluminium body, die-cast aluminium double trim and flush glass.
Protection rating against dust and moisture: IP54.
Protection rating of resistance to harmful mechanical impacts: IK5.
High-purity (99.99%) aluminium reflector.
Trim with glass that is easily attached to the body without the need for tools.
Light sources available: halogen, compact fluorescent, metal halide and sodium lamps.

Downlight de superficie con protección IP54.
Cuerpo neutro de forma cilíndrica disponible en 6 dimensiones.
Control total de la luz: elevado rendimiento y gran eficacia.
Cuerpo de aluminio, doble aro de aluminio inyectado y cristal raso.
Índice de protección contra polvo y humedad: IP54.
Índice de protección contra impactos mecánicos nocivos: IK5.
Reflector de gran pureza (99,99%) aluminio.
Aro con cristal fácilmente fijado al cuerpo sin necesidad de herramientas.
Fuentes disponibles: lámparas halógenas, fluorescentes compactas, de halogenuros metálicos y sodio.

Downlight apparent avec protection IP54.
Corps neutre de forme cylindrique disponible en 6 dimensions.
Contrôle total de la lumière : rendement élevé et grande efficacité.
Corps en aluminium, double collerette en aluminium injecté et verre.
Indice d'étanchéité à la poussière et à l'humidité : IP54.
Indice de résistance aux chocs mécaniques : IK5.
Réflecteur en aluminium de grande pureté (99,99%), disponible en différentes finitions.
Collerette ronde en aluminium avec verre intégré fixable facilement au corps sans besoin d'outil.
Sources disponibles : lampes halogènes, fluorescentes compactes, aux iodures métalliques et à sodium.

Homes, shops, restaurants, shopping centres, leisure areas, religious centres, showrooms, and so on.

Solid ceilings, where there is not enough space for recessed mounting.
A very good solution for high ceilings because it enables the lighting point to be brought near to the work plane.

Viviendas, tiendas, restaurantes, centros comerciales, espacios de ocio, centros religiosos, concesionarios y otras aplicaciones.

Techos sólidos, donde no hay suficiente espacio para empotrar.
Solución muy adecuada para techos altos ya que permite aproximar el punto de luz al plano de trabajo.

Logements, boutiques, restaurants, centres commerciaux, espaces de loisirs, centres religieux, concessionnaires et autres applications.

Luminaires pour plafonds solides ou zones n'offrant pas suffisamment d'espace pour les encastrer.
Une solution idéale pour les plafonds hauts, offrant la possibilité d'approcher le point de lumière au plan de travail.

PENDANT

Suspension with aluminium sheet body.

Neutral cylindrical body that integrates into the space, with more than 10 possible sizes to get the possible photometric qualities.

Total lighting control: high performance and high efficiency.

High-purity (99,99%) aluminium reflector available in various finishes.

Aluminium body available in various finishes.

For a more dynamic effect, it can be supplied with an adapter for three-phase tracks.

The version with cross screen (4 cells) increases visual comfort in work areas with computer screens.

Light sources available: halogen, compact fluorescent, metal halide and metal halide lamps.

Suspensión con cuerpo de plancha aluminio.

Cuerpo neutro de forma cilíndrica que se integra en el espacio, más de 10 dimensiones posibles para disponer de la mejor fotometría.

Control total de la luz: elevado rendimiento y gran eficacia.

Reflector de gran pureza (99,99%) aluminio disponible en varios acabados.

Para obtener más dinamismo se puede suministrar con adaptador para carril trifásico.

La versión con rejilla en cruz (4 celdas) aportará confort visual en zonas de trabajo con pantallas.

Fuentes disponibles: lámparas halógenas, fluorescentes compactas, halogenuros metálicos y halogenuros metálicos.

Suspension avec corps en plaque d'aluminium.

Corps neutre de forme cylindrique s'intégrant dans l'espace. Plus de 10 dimensions possibles pour une photométrie optimale.

Contrôle total de la lumière : rendement élevé et grande efficacité.

Réflecteur en aluminium de grande pureté (99,99%), disponible en différentes finitions.

Pour plus de dynamisme, peut être fourni avec un adaptateur pour rail triphasé.

La version avec grille en croix (4 cellules) garantit un confort visuel dans les zones de travail sur écran.

Sources disponibles : lampes halogènes, fluorescentes compactes, aux iodures métalliques et aux iodures métalliques.

Industrial facilities, shopping centres, leisure areas, sports centres, cafeterias, showrooms, and so on.

Solid ceilings, where there is not enough space for recessed mounting.

A very good solution for high ceilings because it enables the lighting point to be brought near to the work plane.

Instalaciones industriales, centros comerciales, espacios de ocio, centros deportivos, comedores, concesionarios y otras aplicaciones.

Áreas con techos sólidos, donde no hay suficiente espacio para empotrar.

Solución muy adecuada para techos altos ya que permite aproximar el punto de luz al plano de trabajo.

Installations industrielles, centres commerciaux, espaces de loisirs, centres sportifs, espaces de restauration, concessionnaires et autres applications.

Luminaires pour espaces avec plafond solide ou zones n'offrant pas suffisamment d'espace pour les encastrer.

Une solution idéale pour les plafonds hauts, offrant la possibilité d'approcher le point de lumière au plan de travail.

ORION

Suspension with aluminium body and prismatic polycarbonate diffuser.
Diffuser available in 2 diameters, 350 mm and 450 mm.

Can be combined with the SPHERE semi-recessed line to achieve a better effect.

For a more dynamic effect, it can be supplied with an adapter for three-phase track.

The polycarbonate diffuser is available in various finishes.

Certain references are supplied with an interior reflector with safety glass to direct the light and thus obtain total lighting control.

Light sources available: halogen, compact fluorescent and metal halide lamps.

Suspensión con cuerpo de aluminio y difusor prismático de policarbonato.

Difusor disponible en 2 diámetros, 350 mm y 450 mm.

Se puede combinar con la línea de semi-empotrables SPHERE para lograr un mayor efecto.

Para obtener más dinamismo se puede suministrar con adaptador para carril trifásico.

El difusor de policarbonato está disponible en distintos acabados. Determinadas referencias se suministran con un reflector interior con vidrio de seguridad para dirigir la luz y obtener un control total sobre esta.

Fuentes disponibles: lámparas halógenas, fluorescentes compactas y de halogenuros metálicos.

Suspension avec corps en aluminium et diffuseur prismatique en polycarbonate.

Modèle disponible en 2 diamètres : 350 mm et 450 mm.

Combinable avec la gamme de luminaires semi-encastreables SPHERE pour un meilleur effet.

Pour plus de dynamisme, peut être fourni avec un adaptateur pour rail triphasé.

Le diffuseur en polycarbonate est disponible en différentes finitions. Certaines références sont livrées avec un réflecteur intérieur muni d'un verre de sécurité afin de diriger et contrôler totalement la lumière. Sources disponibles : lampes halogènes, fluorescentes compactes et aux iodures métalliques.

Shops, hotels, restaurants, and so on.

Tiendas, hoteles, restaurantes, viviendas y otras aplicaciones.

Boutiques, hôtels, restaurants, logements et autres applications.

LED TEKNO

Small recessed ceiling-mounted downlights with aluminium and die-cast aluminium body.

Range of shapes and sizes, fixed and swivel version depending on the reference.

Ceiling-mounted with spring clamps.

Wide range of finishes and decorative accessories available.

Built-in aluminium heat sink diffuser.

The luminaire is supplied with the lamp included.

Light source available: LED.

Wide range of radiation angles, wattages, colour temperatures, RGB.

Pequeños downlights empotrables en techo con cuerpo de aluminio y aluminio inyectado.

Variedad de formas y dimensiones, versión fija u orientable dependiendo de la referencia.

Montaje al techo por muelles de fijación.

Se complementan con un amplio abanico de acabados y accesorios decorativos.

Difusor del calor de aluminio integrado.

La luminaria se suministra con lámpara incluida.

Fuente disponible: LED.

Amplia variedad de grados de apertura, potencias, temperaturas de color, RGB.

Petits downlights encastrables avec corps en aluminium et aluminium injecté.

Plusieurs formes et dimensions disponibles, version fixe ou orientable selon la référence.

Montage au plafond par ressorts de fixation.

Peuvent être complétés par un large éventail de finitions et accessoires décoratifs.

Diffuseur de chaleur en aluminium intégré.

Luminaire livré avec lampe.

Source disponible : LED.

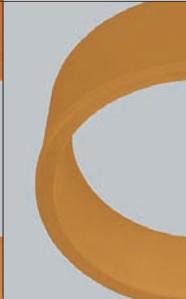

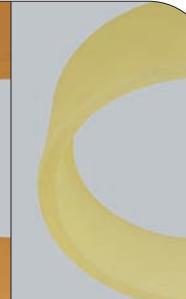

Large choix de degrés de rayonnement, puissances, températures de couleurs, RVB.

LED FOUR SIDES

Recessed ceiling-mounted downlights with aluminium body.
Fixed and swivel versions depending on the reference.
Different shapes, but always with straight lines so they integrate into the space.
Ceiling-mounted with spring clamps.
Built-in aluminium heat sink.
The luminaire is supplied with the lamp included.
Light sources available: LED.
Wide range of radiation angles, wattages, colour temperatures, RGB.

Downlights empotrables en techo con cuerpo de aluminio.
Versión fija u orientable dependiendo de la referencia.
Distintas formas manteniendo siempre las líneas rectas que se integran en el espacio.
Montaje al techo por muelles de fijación.
Difusor del calor de aluminio integrado.
La luminaria se suministra con lámpara incluida.
Fuentes disponibles: LED.
Amplia variedad de grados de apertura, potencias, temperaturas de color, RGB.

Downlights encastrables au plafond avec corps en aluminium.
Version fixe ou orientable selon la référence.
Différentes formes disponibles, toujours sur le principe des lignes droites qui s'intègrent bien dans l'espace.
Montage au plafond par ressorts de fixation.
Diffuseur de chaleur en aluminium intégré.
Luminaire livré avec lampe.
Sources disponibles : LED.
Large choix de degrés de rayonnement, puissances, températures de couleurs, RVB.

et éthéré créant un espace suggestif.

LED BSM

Recessed ceiling-mounted downlight with trim-less effect. Aluminium body and shade.

The luminaire is installed in the ceiling void.

Range of diameters and sizes, fixed and swivel version depending on the reference.

Built-in aluminium heat sink.

Ceiling-mounted with spring clamps.

The luminaire is supplied with the lamp included.

Light sources available: LED.

Wide range of radiation angles, wattages, colour temperatures, RGB.

Downlight empotable en techo con efecto sin aro. Cuerpo y pantalla de aluminio.

La luminaria queda instalada en la parte trasera del techo.

Variedad de diámetros y dimensiones, versión fija u orientable dependiendo de la referencia.

Difusor del calor de aluminio integrado.

Montaje al techo por muelles de fijación.

La luminaria se suministra con lámpara incluida.

Fuentes disponibles: LED.

Amplia variedad de grados de apertura, potencias, temperaturas de color, RGB.

Downlight encastrable avec effet sans-anneau. Corps et écran en aluminium.

Le luminaire est installé dans le faux plafond.

Plusieurs diamètres et dimensions disponibles, version fixe ou orientable selon la référence.

Diffuseur de chaleur en aluminium intégré.

Montage au plafond par ressorts de fixation.

Luminaire livré avec lampe.

Sources disponibles : LED.

Large choix de degrés de rayonnement, puissances, températures de couleurs, RVB.

Kitchens, bathrooms, saunas, porches, ideal for high-humidity environments.

Cocinas, baños, saunas, porches, ideales para ambientes con humedad elevada.

Cuisines, salles de bain, saunas, porches, parfaitement adaptés aux atmosphères très humides.

LED SEAL

Recessed ceiling-mounted downlight with IP65 protection from below.
Circular or square design, fixed and swivel version depending on the reference.

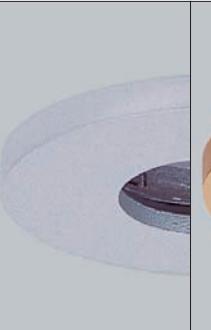

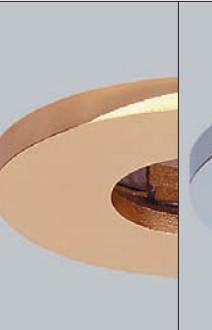

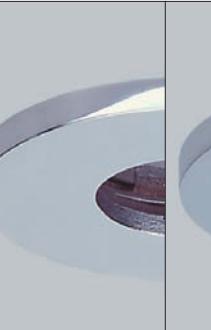

Double trim of die-cast aluminium and glass sealed with silicon ring to guarantee IP65 protection rating from below.
Built-in aluminium heat sink.
Ceiling-mounted with spring clamps.
The luminaire is supplied with the lamp included.
Light source available: LED.
Wide range of radiation angles, wattages, colour temperatures, RGB.

Downlight empotable en techo con protección IP65 desde abajo.
Diseño circular o cuadrado, versión fija u orientable dependiendo de la referencia.
Doble aro de aluminio inyectado y cristal cerrado con aro de silicona para garantizar la protección IP65 desde abajo.
Difusor del calor de aluminio integrado.
Montaje al techo por muelles de fijación.
La luminaria se suministra con lámpara incluida.
Fuente disponible: LED.
Amplia variedad de grados de apertura, potencias, temperaturas de color, RGB.

Downlight encastrable avec étanchéité IP65 par le dessous.
Modèle circulaire ou carré, version fixe ou orientable selon la référence.
Double collierette en aluminium injecté et verre avec bague en silicone pour garantir une étanchéité IP65 par le dessous.
Diffuseur de chaleur en aluminium intégré.
Montage au plafond par ressorts de fixation.
Luminaria livré avec lampe.
Source disponible : LED.
Large choix de degrés de rayonnement, puissances, températures de couleurs, RVB.

LED LINEAL PARA TECHO O PARED
LED LINEAL POUR PLAFOND OU MUR

L E D | L E D | L E D

Shops, hotels, restaurants, and homes.
Interior accent lighting for furniture and displays.

Tiendas, hoteles, restaurantes, viviendas y otras aplicaciones.
Interiores de muebles, aparadores.

Boutiques, hôtels, restaurants, logements et autres applications.
Intérieurs de meubles, vitrines.

LED LINE

Surface mounted luminaire for installation in ceilings or walls.
Clear or frosted polycarbonate diffuser.

Fixed and swivel versions.

Various lengths: 600 mm, 1.000 mm, 1.200 mm or 1.500 mm.

Light sources available: LED.

Wide range of radiation angles and colour temperatures.

Luminaria aparente para instalación en techo o pared.

Difusor de policarbonato transparente o mate.

Versión fija u orientable.

Variedad de longitudes: 600 mm, 1.000 mm, 1.200 mm o 1.500 mm.

Fuentes disponibles: LED.

Amplia variedad de grados de apertura y temperaturas de color.

Luminaire apparent pour plafond ou mur.

Diffuseur en polycarbonate transparent ou mat.

Version fixe ou orientable.

Longueurs au choix : 600 mm, 1.000 mm, 1.200 mm ou 1.500 mm.

Sources disponibles : LED.

Large choix de degrés de rayonnement et températures de couleurs.

Porches, shopping centres, warehouses, leisure areas, service stations, industrial facilities, high-humidity outdoor spaces or interior spaces that require low-maintenance.

Porches, centros comerciales, almacenes, espacios de ocio, estaciones de servicio, instalaciones industriales, espacios exteriores con humedad elevada o espacios interiores que requieren bajo nivel de mantenimiento.

Porches, centres commerciaux, espaces de loisirs, stations-service, installations industrielles. Espaces extérieurs très humides ou espaces intérieurs exigeant peu de maintenance.

WATERTIGHT

Compact, recessed downlight with IP65 protection.
Circular design available in various diameters, from 110 mm to 280 mm.
Aluminium body treated against corrosion and coated with polyester powder.
Protection rating against dust and moisture: IP65.
Protection rating of resistance to harmful mechanical impacts: IK7.
Exterior screws and cover made of 316L stainless steel marine grade.
Anti-condensation device.
Also available in a version with cross screen (4 cells) for greater visual comfort.
Light sources available: halogen, compact fluorescent, metal halide and sodium lamps.

Downlight empotable compacto con protección IP65.
Diseño circular disponible en distintos diámetros, de 110 mm a 280 mm.
Cuerpo de aluminio con tratamiento anticorrosivo y acabado en polvo poliéster.
Índice de protección contra polvo y humedad: IP65.
Índice de protección contra impactos mecánicos nocivos: IK7.
Tapa y tornillos exteriores de acero inoxidable 316L grado marino.
Mecanismo anti-condensación.
Disponible la versión con reflector rejilla en cruz (4 celdas) para aumentar el confort visual.
Fuentes disponibles: lámparas halógenas, fluorescentes compactas, halogenuros metálicos y sodio.

Downlight encastrable compact avec protection IP65.
Modèle circulaire disponible en plusieurs diamètres, de 110 mm à 280 mm.
Corps en aluminium avec traitement anticorrosion et finition en poudre de polyester.
Indice d'étanchéité à la poussière et à l'humidité : IP65.
Indice de résistance aux chocs mécaniques : IK7.
Anneau et vis extérieures en acier inoxydable 316L degré marine.
Mécanisme anti-condensation.
Disponible en version avec réflecteur avec grille en croix (4 cellules) pour accroître le confort visuel.
Sources disponibles: lampes halogènes, fluorescentes compactes, aux iodures métalliques et sodium.

ESCOLA BRESSOL GALATEA. Barcelona

Porches, shopping centres, warehouses, leisure areas, service stations,
industrial facilities.

High-humidity outdoor areas or interior spaces that require
low-maintenance.

Porches, centros comerciales, almacenes, espacios de ocio,
estaciones de servicio, instalaciones industriales. Espacios exteriores
con humedad elevada o espacios interiores que requieren bajo nivel
de mantenimiento.

Porches, centres commerciaux, boutiques, espaces de loisirs,
stations-service, installations industrielles. Espaces extérieurs très humides
ou espaces intérieurs nécessitant peu de maintenance.

WATERTIGHT SQUARE

Compact, recessed downlight with IP65 protection.
Square design in 2 sizes, 258 × 258 mm and 318 × 318 mm.
Aluminium body treated against corrosion and coated with polyester powder.
Protection rating against dust and moisture: IP65.
Protection rating of resistance to harmful mechanical impacts: IK7.
Exterior screws and cover made of 316L stainless steel marine grade.
Anti-condensation device.
Also available in a version with cross screen (4 cells) for greater visual comfort.
Light sources available: compact fluorescents, metal halide and sodium lamps.

Downlight empotable compacto con protección IP65.
Diseño cuadrado en 2 dimensiones, 258 × 258 mm y 318 × 318 mm.
Cuerpo de aluminio con tratamiento anticorrosivo y acabado en polvo poliéster.
Índice de protección contra polvo y humedad: IP65.
Índice de protección contra impactos mecánicos nocivos: IK7.
Tapa y tornillos exteriores de acero inoxidable 316L grado marino.
Mecanismo anti-condensación.
También disponible la versión con rejilla en cruz (4 celdas) para aumentar el confort visual.
Fuentes disponibles: lámparas fluorescentes compactas, halogenuros metálicos, sodio.

Downlight encastrable compact avec protection IP65.
Modèle carré en 2 dimensions, 258 × 258 mm et 318 × 318 mm.
Corps en aluminium avec traitement anticorrosion et finition en poudre de polyester.
Indice d'étanchéité à la poussière et à l'humidité : IP65.
Indice de résistance aux chocs mécaniques : IK7.
Cadre et vis extérieures en acier inoxydable 316L degré marine.
Mécanisme anti-condensation.
Également disponible en version avec grille en croix (4 cellules) pour accroître le confort visuel.
Sources disponibles : lampes fluorescentes compactes, aux iodures métalliques et à sodium.

Outdoor spaces: gardens, parks, pathways that may be affected by temporary flooding.

Interior spaces in shopping centres, hotel entrances, cinemas, car parks,
mechanical workshops.

Suitable for installation in concrete, pavement and lawn.

**Espacios exteriores: jardines, parques, zonas de paseo expuestas
a inundaciones temporales.**

**Espacios interiores de centros comerciales, entradas de hotel,
cines, parkings, talleres mecánicos y otras aplicaciones.**

Adecuados para instalación en hormigón, pavimentos y césped.

Espaces extérieurs : jardins, parcs, lieux de passage exposés à des inondations temporaires.

Espaces intérieurs de centres commerciaux, entrées d'hôtels, cinémas, parkings, ateliers
mécaniques et autres applications.

Adaptés à une installation dans du béton, des pavés ou du gazon.

TERRA

Recessed buried uplight that is very robust and corrosion-resistant because of its 18 μ -anodized aluminium body and 316L stainless-steel marine grade trim.

Circular or square design available in a range of diameters.
Its full IP68 protection rating enables it to resist accidental immersion to a depth of 1.3 m due to temporary flooding.

Weight supported: 6600Kg, 7100Kg, 5600Kg, depending on the reference.

Tempered glass from 10 mm to 15 mm thick, depending on the reference.
Protection rating of resistance to harmful mechanical impacts: IK10.

Supplied with aluminium insertion tube as standard.

Double cable gland entry for installation in series.

Optional pre-wiring of 1.5 metres in length.

Light sources available: LED, halogen, compact fluorescent, metal halide and sodium.

Luminaria empotable en suelo de gran robustez y resistencia a la corrosión gracias a su cuerpo de fundición de aluminio anodizado 18 μ y su aro de acero inoxidable 316L grado marino.

Diseño circular o cuadrado disponible en variedad de dimensiones.
Su grado de protección IP68 total permite soportar una inmersión accidental de 1,3 m de profundidad por causa de una inundación temporal.

Peso soportado: 6600Kg, 7100Kg, 5600Kg según referencia.

Vidrio templado de 10 mm a 15 mm de grosor según referencia.

Grado de protección contra impactos mecánicos nocivos: IK10.

Se suministra con tubo de inserción de aluminio como estándar.

Doble entrada de cable para instalación en serie.

Pre-cableado, 1,5 metros de largo opcional.

Fuentes disponibles: LED, halógenas, fluorescentes compactas, halogenuros metálicos y sodio.

Uplight encastrable dans le sol, très robuste et très résistant à la corrosion, grâce à un corps en fonte d'aluminium anodisé de 18 μ et à une collerette en acier inoxydable 316L degré marine.

Modèle circulaire ou carré disponible en plusieurs dimensions.

Avec un indice d'étanchéité IP68, il peut supporter une immersion accidentelle jusqu'à 1,30 m de profondeur en cas d'inondation temporaire.

Charge supportée : 6600Kg, 7100Kg, 5600Kg selon la référence.

Verre trempé de 10 mm à 15 mm d'épaisseur selon la référence.

Résistance aux chocs mécaniques : IK10.

Livré de série avec un tube d'insertion en aluminium.

Double entrée de câble pour une installation en série.

Pré-câblage de 1,5m de long en option.

Sources disponibles : LED, halogènes, fluorescentes compactes, aux iodures métalliques et sodium .

As standard, all ROVASI inground uplighters are supplied with an anodised aluminium insertion tube for an easy installation.
 All inground uplighters require a correct drainage to allow a fast water evacuation to avoid its accumulation.

Important:

These inground uplighters, although classified IP68 cannot be installed permanently in water according to international norm IEC 364-7-702. It can withstand accidental immersion of 1.3 m, depth due to temporary flooding.

Como standard, todos los empotrables de suelo ROVASI se suministran con un tubo de inserción en aluminio anodizado para una mejor instalación.
Todos los empotrables de suelo precisan un correcto drenaje que permita una rápida evacuación del agua que pudiera acumularse.

Importante:

Estos empotrables, a pesar de estar clasificados IP68 no pueden ser instalados permanentemente en agua de acuerdo con la norma internacional IEC 364-7-702. Pueden soportar una inmersión accidental de 1,3 m. de profundidad por causa de una inundación temporal.

Comme standard tous les encastrables de sol ROVASI sont fournis avec tube d'insertion en aluminium anodisé pour une meilleure installation.
 Tous les encastrables de sol ont besoin d'un correcte drainage pour permettre une rapide évacuation de l'eau qui puisse s'accumuler.

Important:

Ces encastrables bien qui sont classifiés IP68 ne peuvent pas être installés en permanence dans l'eau, d'accord avec la norme international IEC 364-7-702. Ils peuvent supporter une immersion accidentelle de 1,3 m. de profondeur à cause d'inondation temporel.

Outdoor spaces exposed to highly corrosive environments; lighting of gardens, parks, promenades, pathways, and so on.
Suitable for installation in concrete, pavement and lawn.

Espacios exteriores expuestos a ambientes con gran corrosividad, iluminación de jardines, parques, paseos marítimos, zonas de paseo y otras aplicaciones.
Adecuados para instalación en hormigón, pavimentos y césped.

Espaces extérieurs exposés à une atmosphère très corrosive, éclairages de jardin, parcs, bords de mer, zones de passage et autres applications.
Adaptés à une installation dans du béton, des pavés ou du gazon.

LAND

Recessed buried uplight that is very robust and highly corrosion-resistant. All the exterior parts (body, trim, screws and cable gland) are made of 316L stainless steel marine grade.

Its full IP68 protection rating enables it to resist accidental immersion to a depth of 1.3 m due to temporary flooding.

Circular or square design available in 5 diameters.

Weight supported: 6600Kg, 7100Kg, 5600Kg, 3800Kg, 2900Kg, depending on the reference.

15 mm tempered glass.

Protection rating against dust and moisture: IP68.

Protection rating of resistance to harmful mechanical impacts: IK10.

Supplied with insertion tube.

Optional double cable gland entry for installation in series.

Optional pre-wiring of 1.5 metres in length.

Light sources available: halogen, compact fluorescent, metal halide and sodium lamps.

Luminaria empotrable en suelo de gran robustez y alta resistencia a la corrosión.

Todos sus componentes exteriores (cuerpo, aro, tornillos y prensa estopa) son de acero inoxidable 316L grado marino.

Su grado de protección IP68 total permite soportar una inmersión accidental de 1,3 m de profundidad por causa de una inundación temporal.

Diseño circular o cuadrado disponible en 5 diámetros.

Peso soportado: 6600Kg, 7100Kg, 5600Kg, 3800Kg, 2900Kg, según referencia.

Vidrio templado de 15 mm de grosor.

Grado de protección contra humedad y polvo: IP68.

Grado de protección contra impactos mecánicos nocivos: IK10.

Se suministra con tubo de inserción.

Doble entrada de cable para instalación en serie opcional.

Pre-cableado 1,5 metros de largo opcional.

Fuentes disponibles: lámparas halógenas, fluorescentes compactas, halogenuros metálicos y sodio.

Uplight encastrable au sol, très solide et très résistant à la corrosion.

Tous les composants extérieurs (corps, collerette, vis et presse-étoupe) sont en acier inoxydable 316L degré marine.

Avec un indice d'étanchéité IP68, il peut supporter une immersion accidentelle jusqu'à 1,30 m de profondeur en cas d'inondation temporaire. Modèle circulaire ou carré disponible en 5 diamètres.

Charge supportée : 6600Kg, 7100Kg, 5600Kg, 3800Kg, 2900Kg, selon la référence.

Verre trempé de 15 mm d'épaisseur.

Niveau d'étanchéité à la poussière et à l'humidité : IP68.

Résistance aux chocs mécaniques : IK10.

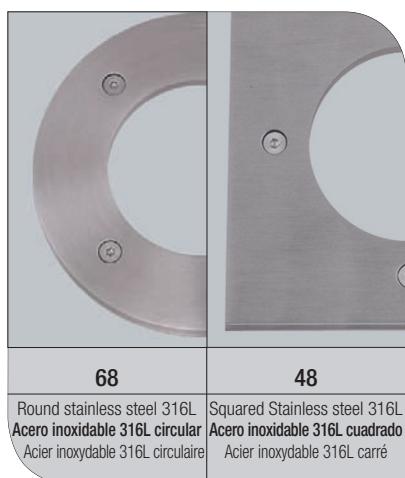

Livré avec tube d'insertion.

En option, double entrée de câble pour une installation en série.

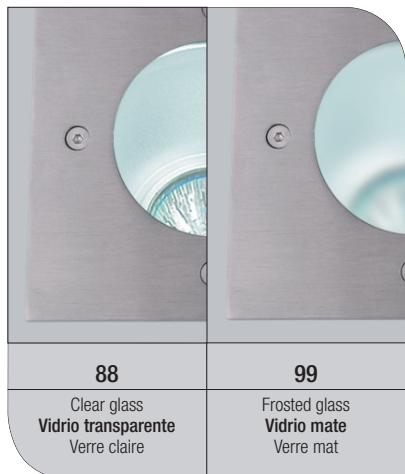

En option, pré-câblage de 1,5 m de long.

Sources disponibles : lampes halogènes, fluorescentes compactes, aux iodures métalliques et à sodium.

TRIM • ARO • ANNEAU

DIFFUSER • DIFUSOR • DIFFUSEUR

As standard, all ROVASI inground uplighters are supplied with an anodised aluminium insertion tube for an easy installation.

All inground uplighters require a correct drainage to allow a fast water evacuation to avoid its accumulation.

Important:

These inground uplighters, although classified IP68 cannot be installed permanently in water according to international norm IEC 364-7-702. It can withstand accidental immersion of 1.3 m. depth due to temporary flooding.

Como standard, todos los empotrables de suelo ROVASI se suministran con un tubo de inserción en aluminio anodizado para una mejor instalación.
Todos los empotrables de suelo precisan un correcto drenaje que permita una rápida evacuación del agua que pudiera acumularse.

Importante:

Estos empotrables, a pesar de estar clasificados IP68 no pueden ser instalados permanentemente en agua de acuerdo con la norma internacional IEC 364-7-702. Pueden soportar una inmersión accidental de 1,3 m. de profundidad por causa de una inundación temporal.

Comme standard tous les encastrables de sol ROVASI sont fournis avec tube d'insertion en aluminium anodisé pour une meilleure installation.

Tous les encastrables de sol ont besoin d'un correcte drainage pour permettre une rapide évacuation de l'eau qui puisse s'accumuler.

Important:

Ces encastrables bien qui sont classifiés IP68 ne peuvent pas être installés en permanence dans l'eau, d'accord avec la norme international IEC 364-7-702. Ils peuvent supporter une immersion accidentelle de 1,3 m. de profondeur à cause d'inondation temporel.

Buried low-height wall-washer uplight. All external components are in stainless steel 316L: body, trim, screws and cable gland. Protective 15mm tempered clear glass as standard. Built-in control gear. Insertion tube included. IP68 protection (accidental immersion of 1.3m depth due to temporary flooding).

Uplight soterrado de baja profundidad bañador de pared . Todos los componentes exteriores son de acero inoxidable 316L: cuerpo, aro, tornillos y prensa estopa. Vidrio templado de protección de 15mm claro como estándar. Equipo eléctrico incorporado. Tubo de inserción incluido. Protección IP68 (inmersión accidental de 1.3m de profundidad por causa de una inundación temporal).

Encastré de sol baisse hauteur faisceau mural. Tous les composants extérieurs sont en acier inoxydable 316L: corps, anneau, vis et presse étoupe. Verre tempéré de protection de 15mm clair comme standard. Equipement électrique intégré. Pot d'encastrement inclus. Protection IP68 (immersion accidentelle de 1,3 m de profondeur à cause d'inondation temporel).

Outdoor spaces: gardens, parks, pathways that may be affected by temporary flooding.
Interior spaces in shopping centres, hotel entrances, cinemas, car parks and mechanical workshops.
Suitable for installation in concrete, pavement and lawn.

Espacios exteriores: jardines, parques, zonas de paseo expuestas a inundaciones temporales.
Espacios interiores de centros comerciales, entradas de hotel, cines, parkings, talleres
mecánicos y otras aplicaciones.
Adecuados para instalación en hormigón, pavimentos y césped.

Espaces extérieurs : jardins, parcs, lieux de passage exposés à des inondations temporaires.
Espaces intérieurs de centres commerciaux, entrées d'hôtels, cinémas, parkings, ateliers mécaniques
et autres applications.
Adaptés à une installation dans du béton, des pavés ou du gazon.

COOL CONTACT

Recessed buried uplight that is very robust and corrosion-resistant because of its 18 μ -anodised aluminium body and 316L stainless-steel marine grade trim. It features 15-mm double-glazing with tempered glass and an air cavity to reduce contact temperature.

IP68 protection rating enables it to resist accidental immersion to a depth of 1.3 m due to temporary flooding.

Glass surface temperature under 80 °C.

Weight supported: 2900 Kg.

Protection rating against dust and moisture: IP68..

Protection rating of resistance to harmful mechanical impacts: IK10.

Supplied with aluminium insertion tube as standard.

Double cable gland entry for installation in series.

Optional pre-wiring of 1.5 metres.

Light sources available: halogen, metal halide and sodium.

Luminaria empotable en suelo de gran robustez y resistente a la corrosión gracias a su cuerpo de aluminio anodizado 18 μ y su aro de acero inoxidable 316L grado marino.

Se caracteriza por su doble vidrio templado de protección de 15 mm y cámara de aire intermedia para reducir la temperatura de contacto.

Su grado de protección IP68 total permite soportar una inmersión accidental de 1,3 m de profundidad por causa de una inundación temporal.

Temperatura de contacto del vidrio inferior a 80 °C.

Peso soportado: 2.900 Kg.

Grado de protección contra polvo y humedad: IP68.

Grado de protección contra impactos mecánicos nocivos: IK10.

Se suministra con tubo de inserción de aluminio como estándar.

Doble entrada de cable para instalación en serie.

Pre cableado 1,5 metros de largo opcional.

Fuentes disponibles: lámparas halógenas, halogenuros metálicos y sodio.

Uplight encastrable dans le sol, très robuste et résistant à la corrosion, grâce à un corps en aluminium anodisé de 18 μ et une collerette en acier inoxydable 316L degré marine.

Il se caractérise par une protection en verre trempé double épaisseur de 15 mm et une chambre d'air intermédiaire permettant de réduire la température de contact. Avec un indice d'étanchéité IP68, il peut supporter une immersion accidentelle jusqu'à 1,30 m de profondeur en cas d'inondation temporaire. Température de contact du verre inférieure à 80 °C.

Charge supportée : 2.900 Kg.

Niveau d'étanchéité à la poussière et à l'humidité : IP68.

Résistance aux chocs mécaniques : IK10.

Livré de série avec un tube d'insertion en aluminium.

Double entrée de câble pour une installation en série.

En option, pré-câblage de 1,5 m de long.

Sources disponibles : lampes halogènes, aux iodures métalliques et sodium.

As standard, all ROVASI inground uplighters are supplied with an anodised aluminium insertion tube for an easy installation.
All inground uplighters require a correct drainage to allow a fast water evacuation to avoid its accumulation.

Important:

These inground uplighters, although classified IP68 cannot be installed permanently in water according to international norm IEC 364-7-702. It can withstand accidental immersion of 1.3 m, depth due to temporary flooding.

Como standard, todos los empotrables de suelo ROVASI se suministran con un tubo de inserción en aluminio anodizado para una mejor instalación.
Todos los empotrables de suelo precisan un correcto drenaje que permita una rápida evacuación del agua que pudiera acumularse.

Importante:

Estos empotrables, a pesar de estar clasificados IP68 no pueden ser instalados permanentemente en agua de acuerdo con la norma internacional IEC 364-7-702. Pueden soportar una inmersión accidental de 1,3 m. de profundidad por causa de una inundación temporal.

Comme standard tous les encastrables de sol ROVASI sont fournis avec tube d'insertion en aluminium anodisé pour une meilleure installation.
Tous les encastrables de sol ont besoin d'un correcte drainage pour permettre une rapide évacuation de l'eau qui puisse s'accumuler.

Important:

Ces encastrables bien qui sont classifiés IP68 ne peuvent pas être installés en permanence dans l'eau, d'accord avec la norme international IEC 364-7-702. Ils peuvent supporter une immersion accidentelle de 1,3 m. de profondeur à cause d'inondation temporel.

Floors where there is not much depth for recessed mounting.

Gardens, parks, pathways exposed to temporary flooding or floors in indoor areas of shopping centres, car parks, service stations, mechanical workshops, and so on.

Suitable for installation in concrete, pavement and lawn.

Suelos donde se dispone de poca profundidad para empotrar.

Jardines, parques, zonas de paseo expuestas a inundaciones temporales o suelos de espacios interiores de centros comerciales, parkings, estaciones de servicio, talleres mecánicos y otras aplicaciones.

Adecuados para instalación en hormigón, pavimentos y césped.

Sols offrant une faible profondeur d'encastrement.

Jardins, parcs, lieux de passage exposés à des inondations temporaires ou sols intérieurs de centres commerciaux, parkings, stations-service, ateliers mécaniques et autres applications.

Adaptés à une installation dans du béton, des pavés ou du gazon.

LITHOS

Recessed buried uplight that is very robust and corrosion-resistant because of its 18 μ anodised aluminium body and 316L stainless-steel marine grade trim.

Its main feature is its low height: 104 mm or 120 mm.

Its full IP68 protection rating enables it to resist accidental immersion to a depth of 1.3 m due to temporary flooding.

Circular or square design available in two diameters.

Weight supported: 3800 kg or 2900 kg depending on the diameter.
15 mm tempered glass.

Protection rating against dust and moisture: IP68.

Protection rating of resistance to harmful mechanical impacts: IK10.

Supplied with aluminium insertion tube as standard.

Double cable gland entry for installation in series.

Optional pre-wiring of 1.5 metres in length.

Light sources available: halogen, compact fluorescent and metal halide lamps.

Luminaria empotable en suelo de gran robustez y resistencia a la corrosión gracias a su cuerpo de fundición de aluminio anodizado 18 μ y su aro de acero inoxidable 316L grado marino.

Su característica principal es su baja altura: 104 mm o 120 mm.

Su grado de protección IP68 total permite soportar una inmersión accidental de 1,3 m de profundidad por causa de una inundación temporal.

Diseño circular o cuadrado disponible en 2 diámetros.

Peso soportado: 3.800 kg o 2.900 kg.

Vidrio templado de 15 mm de grosor.

Grado de protección contra polvo y humedad: IP68.

Grado de protección contra impactos mecánicos nocivos: IK10.

Se suministra con tubo de inserción de aluminio como estándar.

Doble entrada de cable para conexión en serie.

Pre-cableado 1,5 metros de largo opcional.

Fuentes disponibles: lámparas halógenas, fluorescentes compactas y halogenuros metálicos.

Uplight encastrable dans le sol, très robuste et très résistant à la corrosion, grâce à son corps en fonte d'aluminium anodisé de 18 μ et sa collerette en acier inoxydable 316L degré marine.

Sa faible hauteur constitue sa principale caractéristique : 104 mm ou 120 mm. Avec un indice d'étanchéité IP68, il peut supporter une immersion accidentelle jusqu'à 1,30 m de profondeur en cas d'inondation temporaire. Modèle circulaire ou carré disponible en 2 diamètres.

Charge supportée : 3.800 kg ou 2.900 kg.

Verre trempé de 15 mm d'épaisseur.

Étanchéité à la poussière et à l'humidité : IP68.

Résistance aux chocs mécaniques : IK10.

Livré de série avec un tube d'insertion en aluminium.

Double entrée de câble pour une installation en série.

Pré-câblage de 1,5m de long en option.

Sources disponibles : lampes halogènes, fluorescentes compactes et aux iodures métalliques.

As standard, all ROVASI inground uplighters are supplied with an anodised aluminium insertion tube for an easy installation.
 All inground uplighters require a correct drainage to allow a fast water evacuation to avoid its accumulation.

Important:

These inground uplighters, although classified IP68 cannot be installed permanently in water according to international norm IEC 364-7-702. It can withstand accidental immersion of 1.3 m, depth due to temporary flooding.

Como standard, todos los empotrables de suelo ROVASI se suministran con un tubo de inserción en aluminio anodizado para una mejor instalación.
Todos los empotrables de suelo precisan un correcto drenaje que permita una rápida evacuación del agua que pudiera acumularse.

Importante:

Estos empotrables, a pesar de estar clasificados IP68 no pueden ser instalados permanentemente en agua de acuerdo con la norma internacional IEC 364-7-702. Pueden soportar una inmersión accidental de 1,3 m. de profundidad por causa de una inundación temporal.

Comme standard tous les encastrables de sol ROVASI sont fournis avec tube d'insertion en aluminium anodisé pour une meilleure installation.
 Tous les encastrables de sol ont besoin d'un correcte drainage pour permettre une rapide évacuation de l'eau qui puisse s'accumuler.

Important:

Ces encastrables bien qui sont classifiés IP68 ne peuvent pas être installés en permanence dans l'eau, d'accord avec la norme international IEC 364-7-702. Ils peuvent supporter une immersion accidentelle de 1,3 m. de profondeur à cause d'inondation temporel.

Indoor and outdoor spaces in schools, sports areas, healthcare centres, car parks, and so on.

Ideal for high-humidity environments or spaces that require low-maintenance.

Espacios interiores y exteriores de escuelas, espacios deportivos, centros de salud, parkings y otras aplicaciones.

Ideales para ambientes con humedad elevada o espacios donde se requiera un bajo nivel de mantenimiento.

Espaces intérieurs et extérieurs d'écoles, espaces sportifs, centres de santé, parkings et autres applications.

Parfaitement adaptés à des atmosphères très humides ou des espaces exigeant peu de maintenance.

OYSTER

Vandal-resistant luminaire that is recessed-mounted on walls or ceilings.

Circular design available in 2 diameters: 300 mm and 380 mm.

Very robust body made of die-cast aluminium, treated against corrosion and coated with polyester powder.

Opal polycarbonate diffuser. Optional frosted glass diffuser.

Protection rating against dust and moisture: IP65.

Protection rating of resistance to harmful mechanical impacts: IK10.

Optional supply of vandal-resistant screws.

Anti-condensation device.

Light sources available: compact fluorescent lamps.

Luminaria antivandálica empotrable para pared o techo.

Diseño circular disponible en 2 diámetros, 300 mm o 380 mm.

Cuerpo en fundición de aluminio de gran robustez con tratamiento anticorrosivo y acabado en polvo poliéster.

Difusor de policarbonato opal. En opción difusor de vidrio mate.

Índice de protección contra polvo y humedad: IP65.

Índice de protección contra impactos mecánicos nocivos: IK10.

En opción suministro de tornillos antivandálicos.

Mecanismo anti-condensación.

Fuentes disponibles: lámparas fluorescentes compactas.

Luminaire antivandalisme encastrable pour mur ou plafond.

Modèle circulaire disponible en 2 diamètres : 300 mm ou 380 mm.

Corps en fonte d'aluminium très robuste, avec traitement anticorrosion et finition en poudre de polyester.

Diffuseur en polycarbonate opale. Diffuseur en verre mat en option.

Indice d'étanchéité à la poussière et à l'humidité : IP65.

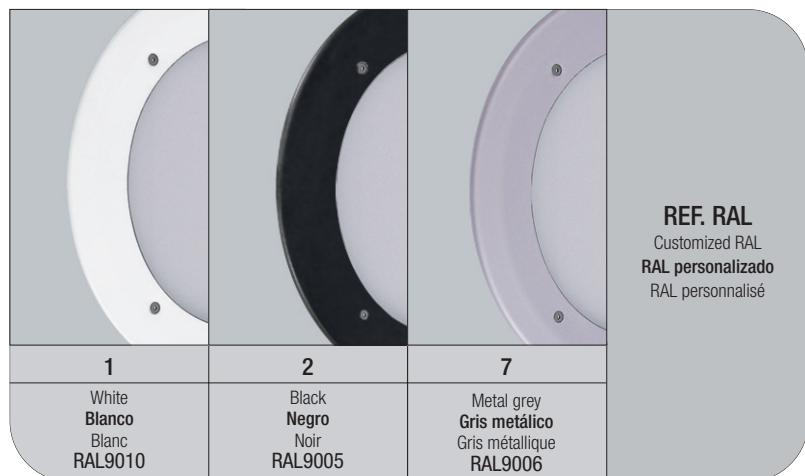

Indice de résistance aux chocs mécaniques : IK10.

Vis antivandalisme en option.

Mécanisme anticondensation.

Sources disponibles : lampes fluorescentes compactes.

Building exteriors, garden walls, patios, porches, outdoor staircases,
passageways, and so on.

Interior spaces in shopping centres, car parks.
High-humidity spaces or those that require low-maintenance.

**Exteriores de edificios, paredes de jardines, terrazas, porches,
escaleras exteriores, zonas de paso y otras aplicaciones.**

**Espacios interiores de centros comerciales, parkings.
Espacios con humedad elevada o donde se requiera un bajo nivel de
mantenimiento.**

Extérieurs de bâtiments, murs de jardins, terrasses, porches, escaliers
extérieurs, zones de passage et autres applications.

Espaces intérieurs de centres commerciaux, parkings.
Espaces très humides ou exigeant peu de maintenance.

ARET

Wall recessed floor washlight.

316L stainless-steel marine grade cover and aluminium body treated against corrosion and coated with polyester powder.

Circular design available in 2 sizes, 250 mm and 280 mm.

Frosted glass diffuser as standard. Optional frosted polycarbonate diffuser.

Protection rating against dust and moisture: IP65.

Protection rating of resistance to harmful mechanical impacts: IK7 (with polycarbonate diffuser, IK10).

Light sources available: compact fluorescent and metal halide lamps.

Luminaria empotable en pared bañador de suelo.

Cubierta de acero inoxidable 316L grado marino y cuerpo de aluminio con tratamiento anticorrosivo y acabado en polvo poliéster. Diseño circular de dimensiones 250 mm o 280 mm.

Difusor de vidrio como estándar. En policarbonato mate como opción.

Grado de protección contra polvo y humedad: IP65.

Grado de protección contra impactos mecánicos nocivos: IK7 (con difusor de policarbonato, IK10).

Fuentes disponibles: lámparas fluorescentes compactas y de halogenuros metálicos.

Luminaire encastrable au mur faisceau du sol.

Revêtement en acier inoxydable 316L degré marine et corps en aluminium avec traitement anticorrosion et finition en poudre de polyester.

Modèle circulaire de diamètres : 250 mm ou 280 mm.

Diffuseur en verre mat en série. Diffuseur en polycarbonate mat en option.

Indice d'étanchéité à la poussière et à l'humidité : IP65.

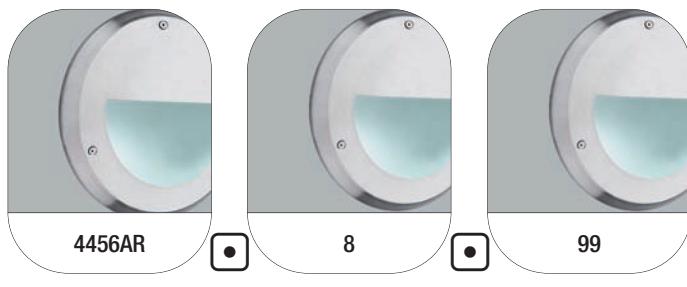

Indice de résistance aux chocs mécaniques : IK7 (IK10 pour le modèle avec diffuseur en polycarbonate).

Sources disponibles : lampes fluorescentes compactes et aux iodures métalliques.

PARKING ARVIEUX. Marseille - France

Porches, shopping centres, leisure areas, car parks, service stations, industrial facilities, outdoor ceilings in areas with high humidity, or interior spaces that require low-maintenance.

Solid ceilings or where there is not enough space for recessed mounting.

Porches, centros comerciales, espacios de ocio, parkings, estaciones de servicio, instalaciones industriales, techos exteriores con humedad elevada o espacios interiores que requieren bajo nivel de mantenimiento.

Techos sólidos o donde no hay suficiente espacio para empotrar.

Porches, centres commerciaux, espaces de loisirs, parkings, stations-service, installations industrielles. Plafonds extérieurs soumis à un taux d'humidité élevé ou espaces intérieurs exigeant peu de maintenance. Luminaires pour plafonds solides ou zones n'offrant pas suffisamment d'espace pour les encastreter.

DAU U

Surface mounted downlight with cubic design.
Design available in 2 sizes, 212 mm and 277 mm.
Very robust body and frame made of die-cast aluminium treated against corrosion and coated with polyester powder.
Protection rating against dust and moisture: IP65.
Protection rating of resistance to harmful mechanical impacts: IK7.
Optional vandal-resistant screws.
Anti-condensation device.
Light sources available: compact fluorescent and metal halide lamps.

Luminaria aparente de techo con diseño cúbico.
Diseño disponible en 2 dimensiones: 212 mm y 277 mm.
Cuerpo y marco de fundición de aluminio de gran robustez con tratamiento anticorrosivo y acabado en polvo poliéster.
Índice de protección contra polvo y humedad: IP65.
Índice de protección contra impactos mecánicos nocivos: IK7.
En opción tornillos antivandálicos.
Mecanismo anti-condensación.
Fuentes disponibles: lámparas fluorescentes compactas y halogenuros metálicos.

Downlight apparent pour plafond de forme cubique.
Modèle disponible en 2 dimensions : 212 mm et 277 mm.
Corps et cadre en fonte d'aluminium très robuste, avec traitement anticorrosion et finition en poudre de polyester.
Indice d'étanchéité à la poussière et à l'humidité : IP65.
Indice de résistance aux chocs mécaniques : IK7.
Vis antivandalisme en option.
Mécanisme anticondensation.
Sources disponibles : lampes fluorescentes compactes et aux iodures métalliques.

Jardines, parques, zonas de paseo, centros comerciales, instalaciones industriales, porches, estaciones de servicio, espacios de ocio. Exteriores con humedad elevada o espacios interiores que requieren bajo nivel de mantenimiento.

Techos sólidos o donde no hay suficiente espacio para empotrar.

Luminaria versátil que puede ser instalada en paredes, techos o suelos.

Jardins, parcs, zones de passage, centres commerciaux, installations industrielles, porches, stations-service, espaces de loisirs. Espaces extérieurs très humides ou espaces intérieurs nécessitant peu de maintenance.

Luminaires pour plafonds solides ou zones n'offrant pas suffisamment d'espace pour les encastrer.

Luminaire polyvalent pouvant être posé au mur, au plafond ou au sol.

PROYECTO

Cylindrical projector mounted on a support that enables the device to be swivelled and adjusted to achieve specific lighting effects.

Cylindrical design available in 4 sizes.

Very robust body and trim made of die-cast aluminium treated against corrosion and coated with polyester powder.

Protection rating against dust and moisture: IP65.

Protection rating of resistance to harmful mechanical impacts: IK7.

Optional supply of vandal-resistant screws.

Anti-condensation device.

Light sources available: halogen, compact fluorescent and metal halide and sodium.

Proyector ajustable cilíndrico fijado sobre soporte que permite el giro y ajuste del aparato para conseguir efectos lumínicos específicos.

Diseño cilíndrico disponible en 4 dimensiones.

Cuerpo y aro de fundición de aluminio de gran robustez con tratamiento anticorrosivo y acabado en polvo poliéster.

Índice de protección contra polvo y humedad: IP65.

Índice de protección contra impactos mecánicos nocivos: IK7.

En opción suministro de tornillos antivandálicos.

Mecanismo anti-condensación.

Fuentes disponibles: lámparas halógenas, fluorescentes compactas y halogenuros metálicos y sodio.

Projecteur ajustable cylindrique, fixé sur un support permettant l'orientation et l'ajustement de l'appareil afin d'obtenir des effets lumineux spécifiques.

Modèle cylindrique disponible en 4 dimensions.

Corps et collarète en fonte d'aluminium très robuste, avec traitement anticorrosion et finition en poudre de polyester.

Indice d'étanchéité à la poussière et à l'humidité : IP65.

Indice de résistance aux chocs mécaniques : IK7.

Vis antivandalisme en option.

Mécanisme anticondensation.

Sources disponibles : lampes halogènes, fluorescentes compactes, aux iodures métalliques et sodium.

RANGE ROVER SHOWROOM. Kharkov. Ukraine

Gardens, parks, pathways, shopping centres, industrial facilities, porches, service stations, leisure areas. High-humidity outdoor areas or interior spaces that require low-maintenance.

Solid ceilings or where there is not enough space for recessed mounting.

Versatile luminaire that can be installed in walls, ceilings or floors.

Jardines, parques, zonas de paseo, centros comerciales, instalaciones industriales, porches, estaciones de servicio, espacios de ocio. Exteriores con humedad elevada o espacios interiores que requieren bajo nivel de mantenimiento

Techos sólidos o donde no hay suficiente espacio para empotrar.

Luminaria versátil que puede ser instalada en paredes, techos o suelos.

Jardins, parcs, zones de passage, centres commerciaux, installations industrielles, porches, stations-service, espaces de loisirs. Espaces extérieurs très humides ou espaces intérieurs nécessitant peu de maintenance.

Luminaires pour plafonds solides ou zones n'offrant pas suffisamment d'espace pour les encastrer.

Luminaire polyvalent pouvant être posé au mur, au plafond ou au sol.

DAU DOS

Cubic projector mounted on a support that enables the fixture to be swivelled and adjusted to achieve special lighting effects.

Design available in 2 sizes, 212 mm and 277 mm.

Very robust body and frame made of die-cast aluminium treated against corrosion and coated with polyester powder.

Protection rating against dust and moisture: IP65.

Protection rating of resistance to harmful mechanical impacts: IK7.

Optional supply of vandal-resistant screws.

Anti-condensation device.

Light sources available: compact fluorescent and metal halide lamps.

Proyector ajustable cúbico fijado sobre soporte que permite el giro y ajuste del aparato para conseguir efectos lumínicos específicos.

Diseño de dimensiones 212 mm o 277 mm.

Cuerpo y marco de fundición de aluminio de gran robustez con tratamiento anticorrosivo y acabado en polvo poliéster.

Índice de protección contra polvo y humedad: IP65.

Índice de protección contra impactos mecánicos nocivos: IK7.

En opción suministro de tornillos antivandálicos.

Mecanismo anti-condensación.

Fuentes disponibles: lámparas fluorescentes compactas y halogenuros metálicos.

Projecteur ajustable cubique, fixé sur un support permettant l'orientation et l'ajustement de l'appareil afin d'obtenir des effets lumineux spécifiques.

Modèle cubique disponible en 2 dimensions : 212 mm ou 277 mm.

Corps et cadre en fonte d'aluminium très robuste, avec traitement anticorrosion et finition en poudre de polyester.

Indice d'étanchéité à la poussière et à l'humidité : IP65.

Indice de résistance aux chocs mécaniques : IK7.

Vis antivandalisme en option.

Mécanisme anticondensation.

Sources disponibles : lampes fluorescentes compactes et aux iodures métalliques.

Indoor and outdoor areas of schools, sports centres, healthcare centres, car parks, and so on.

Ideal for high-humidity environments or spaces that require low-maintenance.

Espacios interiores y exteriores de escuelas, espacios deportivos, centros de salud, parkings y otras aplicaciones.

Ideales para ambientes con humedad elevada o espacios donde se requiera un bajo nivel de mantenimiento.

Espaces intérieurs et extérieurs d'écoles, espaces sportifs, centres de santé, parkings et autres applications.

Parfaitement adaptés à des atmosphères très humides ou des espaces exigeant peu de maintenance.

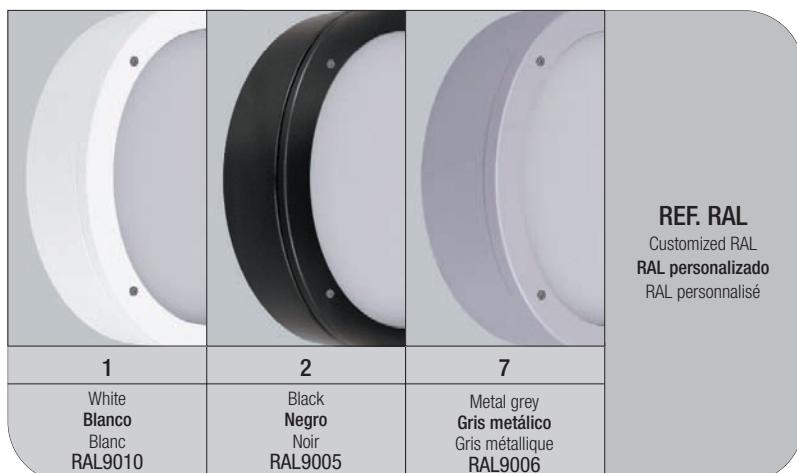

Vandal-resistant surface-mounted luminaire for wall or ceiling.
Circular design available in 2 diameters, 265 mm and 345 mm.
Very robust body made of die-cast aluminium, treated against corrosion and coated with polyester powder.
Opal polycarbonate diffuser. Optional frosted-glass diffuser.
Protection rating against dust and moisture: IP65.
Protection rating of resistance to harmful mechanical impacts: IK10.
Optional supply of vandal-resistant screws.
Anti-condensation device.
Light sources available: compact fluorescent lamps.

Luminaria antivandálica de superficie para pared o techo.
Diseño circular disponible en 2 diámetros, 265 mm y 345 mm.
Cuerpo en fundición de aluminio de gran robustez con tratamiento anticorrosivo y acabado en polvo poliéster.
Difusor de policarbonato opal. En opción difusor de vidrio mate.

Facades, patios, porches, passageways in different spaces: shopping centres, shops, leisure areas, hotels, restaurants, high-humidity outdoor spaces, or interior spaces that require low-maintenance.
Solid walls or where there is not enough space for recessed mounting.

Fachadas, terrazas, porches, zonas de paso en diferentes espacios: centros comerciales, tiendas, espacios de ocio, hoteles, restaurantes, exteriores con humedad elevada o espacios interiores que requieren bajo nivel de mantenimiento. Paredes sólidas o donde no hay suficiente espacio para empotrar.

Façades, terrasses, porches, zones de passage dans différents espaces : centres commerciaux, boutiques, espaces de loisirs, hôtels, restaurants. Espaces extérieurs très humides ou espaces intérieurs nécessitant peu de maintenance.
Luminaires pour murs solides ou zones n'offrant pas suffisamment d'espace pour les encastrer.

TUBE

Cylindrical wall luminaire that provides direct or indirect light.
Design available in 4 sizes.

Very robust body and support made of die-cast aluminium treated against corrosion and coated with polyester powder.

Protection rating against dust and moisture: IP65.

Protection rating of resistance to harmful mechanical impacts: IK7.
Optional vandal-resistant screws.

Light sources available: halogen, compact fluorescent and metal halide and sodium lamps.

Aplique de pared de forma cilíndrica de luz directa o indirecta.
Diseño disponible en 4 dimensiones.

Cuerpo y soporte de fundición de aluminio de gran robustez con tratamiento anticorrosivo y acabado en polvo poliéster.

Índice de protección contra polvo y humedad: IP65.

Índice de protección contra impactos mecánicos nocivos: IK7.
En opción tornillos antivandálicos.

Fuentes disponibles: lámparas halógenas, fluorescentes compactas y halogenuros metálicos y sodio.

Applique murale de forme cylindrique à lumière directe ou indirecte.
Modèle disponible en 4 dimensions.

Corps et support en fonte d'aluminium très robuste, avec traitement anticorrosion et finition en poudre de polyester.

Indice d'étanchéité à la poussière et à l'humidité : IP65.

Indice de résistance aux chocs mécaniques : IK7.

Vis antivandalisme en option.

Sources disponibles : lampes halogènes, fluorescentes compactes, aux iodures métalliques et sodium.

Fachadas, terrazas, porches, zonas de paso en diferentes espacios: centros comerciales, tiendas, espacios de ocio, hoteles, restaurantes. Exteriores con humedad elevada o espacios interiores que requieren bajo nivel de mantenimiento.

Paredes sólidas o donde no hay suficiente espacio para empotrar.

Façades, terrasses, porches, zones de passage dans différents espaces : centres commerciaux, boutiques, espaces de loisirs, hôtels, restaurants. Espaces extérieurs très humides ou espaces intérieurs nécessitant peu de maintenance. Luminaires pour murs solides ou zones n'offrant pas suffisamment d'espace pour les encastrer.

DAUTRES

Cubic wall luminaire that provides direct or indirect light.
Design in two sizes, 212 mm and 277 mm.
Very robust body and support made of die-cast aluminium treated against corrosion and coated with polyester powder.
Protection rating against dust and moisture: IP65.
Protection rating of resistance to harmful mechanical impacts: IK7.
Optional vandal-resistant screws.
Light sources available: compact fluorescent and metal halide lamps.

Aplique de pared de luz directa o indirecta.
Diseño cúbico de dimensiones, 212 mm o 277 mm.
Cuerpo y soporte de fundición de aluminio de gran robustez con tratamiento anticorrosivo y acabado en polvo poliéster.
Índice de protección contra polvo y humedad: IP65.
Índice de protección contra impactos mecánicos nocivos: IK7.
En opción tornillos antivandálicos.
Fuentes disponibles: lámparas fluorescentes compactas y halogenuros metálicos.

Applique murale cubique à lumière directe ou indirecte.
Modèle cubique disponible en 2 dimensions, 212 mm ou 277 mm.
Corps et support en fonte d'aluminium très robuste, avec traitement anticorrosion et finition en poudre de polyester.
Indice d'étanchéité à la poussière et à l'humidité : IP65.
Indice de résistance aux chocs mécaniques : IK7.
Vis antivandalisme en option.
Sources disponibles : lampes fluorescentes compactes et aux iodures métalliques.

Facades, patios, porches, passageways in different spaces: shopping centres, shops, leisure areas, hotels, restaurants, high-humidity outdoor spaces, or interior spaces that require low-maintenance. Solid walls or where there is not enough space for recessed mounting.

Fachadas, terrazas, porches, zonas de paso en diferentes espacios: centros comerciales, tiendas, espacios de ocio, hoteles, restaurantes. Exteriores con humedad elevada o espacios interiores que requieren bajo nivel de mantenimiento.
Paredes sólidas o donde no hay suficiente espacio para empotrar.

Façades, terrasses, porches, zones de passage dans différents espaces : centres commerciaux, boutiques, espaces de loisirs, hôtels, restaurants. Espaces extérieurs très humides ou espaces intérieurs nécessitant peu de maintenance. Luminaires pour murs solides ou zones n'offrant pas suffisamment d'espace pour les encastrer.

U&D

Cylindrical wall luminaire that provides direct and indirect light.
Circular design available in 4 sizes.

Very robust body and support made of die-cast aluminium treated against corrosion and coated with polyester powder.

Protection rating against dust and moisture: IP65.

Protection rating of resistance to harmful mechanical impacts: IK7.
Optional vandal-resistant screws.

Light sources available: halogen, compact fluorescent and metal halide lamps.

Aplique de pared de forma cilíndrica de luz directa e indirecta.
Diseño disponible en 4 dimensiones.

Cuerpo y soporte de fundición de aluminio de gran robustez con tratamiento anticorrosivo y acabado en polvo poliéster.

Índice de protección contra polvo y humedad: IP65.

Índice de protección contra impactos mecánicos nocivos: IK7.
En opción tornillos antivandálicos.

Fuentes disponibles: lámparas halógenas, fluorescentes compactas y halogenuros metálicos.

Applique murale de forme cylindrique à lumière directe et indirecte.
Modèle disponible en 4 dimensions.

Corps et support en fonte d'aluminium très robuste, avec traitement anticorrosion et finition en poudre de polyester.

Indice d'étanchéité à la poussière et à l'humidité : IP65.

Indice de résistance aux chocs mécaniques : IK7.

Vis antivandalisme en option.

Sources disponibles : lampes halogènes, fluorescentes compactes, aux iodures métalliques.

SUSPENSIONES IP65
SUSPENSIONES IP65

Porches, shopping centres, leisure areas, service stations, industrial facilities, high-humidity outdoor spaces, or interior spaces that require low-maintenance.

Solid ceilings or where there is not enough space for recessed mounting.
A very good solution for high ceilings because it enables the lighting point to be brought close to the activity plane.

Porches, centros comerciales, espacios de ocio, estaciones de servicio, instalaciones industriales.
Exteriores con humedad elevada o espacios interiores que requieren bajo nivel de mantenimiento.

Techos sólidos o donde no hay suficiente espacio para empotrar.
Solución muy adecuada para techos altos ya que permite aproximar el punto
de luz al plano de actividad.

Porches, centres commerciaux, espaces de loisirs, stations-service, installations industrielles.

Espaces extérieurs très humides ou espaces intérieurs nécessitant peu de maintenance.

Luminaires pour plafonds solides ou zones n'offrant pas suffisamment d'espace pour les encastrer.
Une solution idéale pour les plafonds hauts, offrant la possibilité d'approcher le point de lumière au plan d'activité.

COMET

Elegant cylindrical suspension with very robust body made of die-cast aluminium with rod.

Design available in 4 sizes.

Body treated against corrosion and coated with polyester powder.

Protection rating against dust and moisture: IP65.

Protection rating of resistance to harmful mechanical impacts: IK 7.

Optional vandal-resistant screws.

Light sources available: halogen, compact fluorescent, metal halide and sodium.

Elegante suspensión compacta con cuerpo cilíndrico de fundición de aluminio de gran robustez y tija rígida.

Diseño disponible en 4 dimensiones.

Cuerpo con tratamiento anticorrosivo y acabado en polvo poliéster. Índice de protección contra polvo y humedad: IP65.

Índice de protección contra impactos mecánicos nocivos: IK7.

En opción tornillos antivandálicos.

Fuentes disponibles: lámparas halógenas, fluorescentes compactas, halogenuros metálicos y sodio.

Élégante suspension compacte avec corps cylindrique en fonte d'aluminium très solide et tige rigide.

Modèle disponible en 4 dimensions.

Porches, shopping centres, leisure areas, service stations, industrial facilities, high-humidity outdoor spaces, or interior spaces that require low-maintenance.

Solid ceilings or where there is not enough space for recessed mounting. A very good solution for high ceilings because it enables the lighting point to be brought close to the activity plane.

Porches, centros comerciales, espacios de ocio, estaciones de servicio, instalaciones industriales. Exteriores con humedad elevada o espacios interiores que requieren bajo nivel de mantenimiento.

Techos sólidos o donde no hay suficiente espacio para empotrar.

Solución muy adecuada para techos altos ya que permite aproximar el punto de luz al plano de actividad.

Porches, centres commerciaux, espaces de loisirs, stations-service, installations industrielles. Espaces extérieurs très humides ou espaces intérieurs nécessitant peu de maintenance.

Luminaires pour plafonds solides ou zones n'offrant pas suffisamment d'espace pour les encastrer.

Une solution idéale pour les plafonds hauts, offrant la possibilité d'approcher le point de lumière au plan d'activité.

DAU QUATRE

Elegant cubic suspension with very robust body made of die-cast aluminium with rod.

Design available in 2 sizes, 212 mm and 277 mm.

Body treated against corrosion and coated with polyester powder.

Protection rating against dust and moisture: IP65.

Protection rating of resistance to harmful mechanical impacts: IK7.

Optional vandal-resistant screws.

Light sources available: compact fluorescent and metal halide lamps.

Elegante suspensión compacta con cuerpo cúbico de fundición de aluminio de gran robustez y tija rígida.

Diseño disponible en 2 dimensiones, 212 mm y 277 mm.

Cuerpo con tratamiento anticorrosivo y acabado en polvo poliéster.

Índice de protección contra humedad y polvo: IP65.

Índice de protección contra impactos mecánicos nocivos: IK7.

En opción tornillos antivandálicos.

Fuentes disponibles: lámparas fluorescentes compactas y halogenuros metálicos.

Élégante suspension compacte avec corps cubique en fonte d'aluminium très solide et tige rigide.

Modèle disponible en 2 dimensions : 212 mm et 277 mm.

Corps et cadre avec traitement anticorrosion et finition en poudre de polyester.

Indice d'étanchéité à la poussière et à l'humidité : IP65.

Indice de résistance aux chocs mécaniques : IK7.

Vis antivandalisme en option.

Sources disponibles : lampes fluorescentes compactes et aux iodures métalliques.

EYE SPA

Safe submersible luminaire for installation in fibreglass walls.
Made entirely of 316L stainless steel marine grade.

These luminaires can be installed under water to a depth of 3 metres while maintaining their IP68 protection rating.

Luminaires designed and produced in accordance with international standard IEC 364-7-702.

Installation from the outer surface using a screw system.
Circular or square design.

Light sources available: LED and halogen lamps.
The luminaire is supplied with the lamp included.

Luminaria sumergible de seguridad para instalación en paredes de fibra de vidrio.

Fabricada enteramente en acero inoxidable 316L grado marino.
Estas luminarias pueden ser instaladas hasta 3 metros bajo el agua manteniendo el índice de protección IP68.

Luminarias diseñadas y fabricadas siguiendo la norma internacional IEC 364-7-702.

Se instala desde la parte exterior mediante sistema de tuerca.
Diseño circular o cuadrado.
Fuentes disponibles: LED y halógenas.
La luminaria se suministra con lámpara incluida.

Luminaires submersibles sécurité, pour une installation dans des murs en fibre de verre.

Fabriqué entièrement en acier inoxydable 316L degré marine.
Ces luminaires peuvent être installés jusqu'à 3 mètres de profondeur, tout en conservant un indice d'étanchéité IP68.

Luminaires conçus et fabriqués conformément à la norme internationale CEI 364-7-702.

Installation de l'extérieur au moyen d'un système d'écrous.
Modèle circulaire ou carré.
Sources disponibles : LED et halogènes.
Luminaire livré avec lampe.
