TEN REASONS

TO WORK WITH THORN

O1 CONSTANT RESEARCH AND INNOVATION

Thorn has been at the forefront of lighting technology for decades, and continues to push at the boundaries. Our investment in R&D and innovation aims to bring customers the very best performance, thanks to the latest advanced engineering in light and electronics, with in-house development.

Electromagnetic compatibility (EMC) testing laboratory

Photometric measurement

PIONEERING OPTICS

Thorn's outdoor range benefits from our class-leading optical system. It offers several precision light distributions to fulfil various requirements, with excellent uniformity and no waste or obtrusive light for all outdoor applications, from roads to urban areas and sports venues.

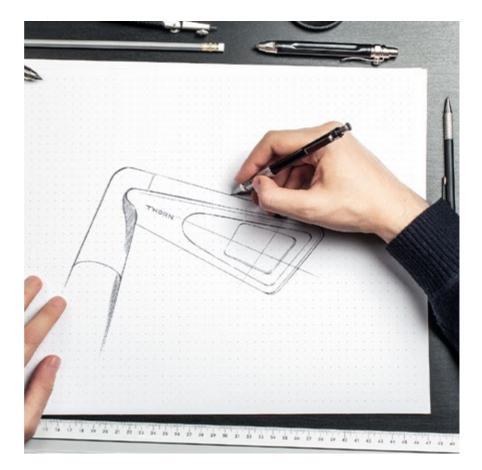

Water ingress protection testing

EXTENSIVE TESTING AND CERTIFICATION

Thorn's products undergo demanding tests for compliance, safety and performance. With Thorn, you can be sure that your outdoor lighting product does what it says it will do, meets all relevant standards and regulations, and comes with a guarantee of quality and safety.

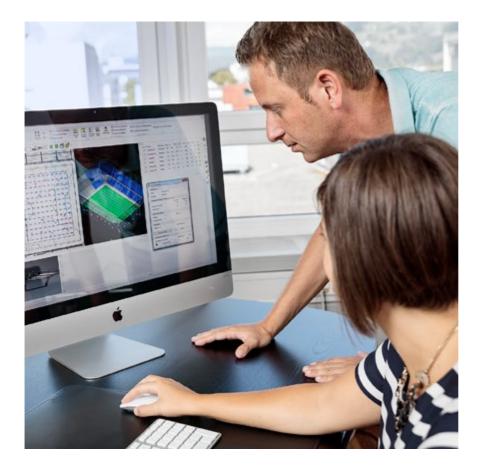

Impact resistance testing

Q4GROUNDBREAKING PRODUCT DESIGN

Customer needs and great design are at the heart of the development of all Thorn products, from concept to creation. Thorn works with top designers, supported by our in-house design team, to integrate lighting concepts in the space elegantly and with a clear and consistent design form, by day and by night.

O5 EXPERIENCED LIGHTING DESIGN SUPPORT

With the help of our experienced in-house designers around the world, Thorn's lighting projects are always well planned, sustainable and use the right amount of light, respecting nature and the outdoor environment. We support customers in finding the best lighting solution possible for every situation.

O6 FUTUREPROOF SOLUTIONS

We design luminaires to be futureproof, with upgradeable components and open systems that can be easily integrated in different places and fulfil many functions, from simple lighting to sophisticated data management, wireless functions, and integration with new technologies.

AND SMART LIGHTING MANAGEMENT

Our products are also equipped with intelligent outdoor lighting management systems. This gives users the power to dim light for saving energy, use presence detection, create scenes, or monitor lighting systems to enhance performance.

07

COMPREHENSIVE PRODUCT DATA AND FREE SOFTWARE

Thorn provides comprehensive product data to support projects from specification through design to installation. Thorn also provides powerful tools to help architects, lighting designers, electricians and others on lighting projects – at no cost.

From energy calculations based on the efficiency of lighting solutions, to Building Information Modelling, or even creating lighting scenes to enhance the ambience of your space while saving energy, Thorn Lighting is committed to providing software and data that empowers professionals to do their jobs.

VIVALDI

Create lighting scenes to suit your taste, whilst still ensuring optimum energy efficiency
